Re: Oppose - HB 5892 - An Act Concerning the Quality of Design and Construction Documents and the Prequalification of Certain Subcontractors.

The Associated Builders and Contractors of CT (CT ABC) Opposes HB 5892 - An Act Concerning the Quality of Design and Construction Documents and the Prequalification of Certain Subcontractors.

While CT ABC recognizes the need for better quality documents, we firmly believe this issue should be **and is being** addressed through avenues such as the Industry Advisory Council to the Department of Public Works and/or at the Department level.

Legislating a process that may soon be replaced with advancing technology is short-sighted and unnecessary.
