

Members of the Government Administration and Elections Committee: My name is Steve Mirsky and I'm speaking on behalf of Southern New England Law Librarians chapter of the American Association of Law Libraries. I would like to express SNELLA's general support for the intent behind HB 5896 as drafted. Our members consistently advocate for free public access to government information and appreciate the fact that in addition to the Commission on Legal Publications, all State agencies issuing regulations would be responsible for posting them in electronic form on their respective websites. This bill provides a good first step toward making public information quickly and reliably available to the legal community and general public.

Sincerely,

Steve Mirsky

Chair, Government Relations Subcommittee
