Subject: Charter Oak Health Plan

I have a daughter who because of her age can no longer be on my husband and my health plan. But she suffers from an anxiety disorder that prevents her from attending school full-time or keeping a full-time job. Therefore, she can not get her own insurance through an employer. She suffers from Asthma and I am scared to death that she will become ill with no insurance of her own. Please make sure that the Charter Oak Health Plan does not get delayed. We have no other option for her and I am sure there are many others!

Thank you.
