

**CGA Judiciary Committee  
March 17, 2008 Public Hearing**

**Support For:**

**SB 607 An Act Concerning The Identification Of Certain Firearms And  
The Criminal Possession Of Firearms**

**Testimony by Claire Sauer, Gun Control Specialist**

**The League of Women Voters of Connecticut urges your support of SB 607 An Act Concerning The Identification Of Certain Firearms And The Criminal Possession Of Firearms.** This act is in keeping with the League's long standing position regarding gun control. It is hard to understand how any legitimate gun owner can object to microstamping in order to link a gun to a crime scene. The act would not restrict the rights of people to own guns, nor would it take guns away from those who own them. Microstamping would, however, be a valuable tool in apprehending criminals.
