(b) (1) The [Connecticut Commission on Culture and Tourism]
Department of Economic and Community Development shall administer a system of tax credit vouchers within the resources, requirements and purposes of this section for digital animation production companies undertaking digital animation production activity in the state.

(A) For income years commencing on or after January 1, 2007, but prior to January 1, 2010, any state-certified digital animation production company incurring production expenses or costs in excess of fifty thousand dollars shall be eligible for a credit against the tax imposed under chapter 207 or this chapter, equal to thirty per cent of such production expenses or costs.

(B) For income years commencing on or after January 1, 2010, (i) any state-certified digital animation production company incurring production expenses or costs of not less than one hundred thousand dollars, but not more than five hundred thousand dollars, shall be eligible for a credit against the tax imposed under chapter 207 or this chapter equal to ten per cent of such production expenses or costs, (ii) any such company incurring such expenses or costs of not less than five hundred thousand one dollars, but not more than one million dollars, shall be eligible for a credit against the tax imposed under chapter 207 or this chapter equal to fifteen per cent of such production expenses or costs, and (iii) any such company incurring such expenses or costs of more than one million dollars shall be eligible for a credit against the tax imposed under chapter 207 or this chapter equal to thirty per cent of such production expenses or costs.

(2) Any credit allowed pursuant to this section may be sold, assigned or otherwise transferred, in whole or in part, to one or more taxpayers, provided no credit, after issuance, may be sold, assigned or otherwise transferred, in whole or in part, more than three times.

(3) Any credit allowed pursuant to this section shall be claimed
against the tax imposed under chapter 207 or this chapter, for the income year in which the production expenses or costs were incurred, and may be carried forward for the three immediately succeeding income years. Any digital animation tax credit allowed under this section shall be nonrefundable.

(4) Any digital animation production company receiving a digital animation tax credit pursuant to this section shall not be eligible to apply for or receive a tax credit pursuant to section 12-217jj, as amended by this act.

(c) (1) Not more frequently than twice during the income year of a state-certified digital animation production company, such company may apply to the [commission] department for a digital animation tax credit voucher, and shall provide with such application such information and independent certification as the [commission] department may require pertaining to the amount of such company's production expenses or costs incurred during the period for which such application is made. Such independent certification shall be provided by an audit professional chosen from a list compiled by the department. If the [commission] department determines that the company is eligible to be issued a tax credit voucher, the [commission] department shall enter on the voucher the amount of production expenses and costs incurred during the period for which the voucher is issued and the amount of tax credits issued pursuant to such voucher. The [commission] department shall provide a copy of such voucher to the commissioner upon request.

(2) The department shall charge a reasonable administrative fee sufficient to cover the department's costs to analyze applications submitted under this section.

(d) If a state-certified digital animation production company sells, assigns or otherwise transfers a credit under this section to another
taxpayer, the transferor and transferee shall jointly submit written notification of such transfer to the [commission] department not later than thirty days after such transfer. The [commission] department shall provide a copy of the notification of assignment to the commissioner upon request.

(e) Any state-certified digital animation production company that wilfully submits information to the [commission] department that it knows to be fraudulent or false shall, in addition to any other penalties provided by law, be liable for a penalty equal to the amount of such company's credit entered on the digital animation tax credit certificate issued under this section.

(f) The issuance by the commission of a digital animation tax credit voucher with respect to an amount of tax credits stated thereon shall mean that none of such tax credits are subject to a post-certification remedy, and that the commission and the commissioner shall have no right, except in the case of possible material misrepresentation or fraud, to conduct any further or additional review, examination or audit of the expenditures or costs for which such tax credits were
issued. If at any time after the issuance of a tax credit voucher the commission or the commissioner determines that there was a material misrepresentation or fraud on the part of a state-certified digital animation production company in connection with the submission of an expense report and the result of such material misrepresentation or fraud was that (1) a specific amount of tax credits was reflected on the tax credit voucher issued in response to such expense report that would not have otherwise been so reflected, and (2) such tax credits would otherwise be subject to a post-certification remedy, such tax credits shall not be subject to any post-certification remedy and the sole and exclusive remedy of the commission and the commissioner shall be to seek collection of the amount of such tax credits from the digital animation production company that committed the fraud or misrepresentation, not from any transferee of the tax credits.

No tax credits transferred pursuant to this section shall be subject to a post-certification remedy, and the department and the commissioner shall have no right, except in the case of possible material misrepresentation or fraud, to conduct any further or additional review, examination or audit of the expenditures or costs for which such tax credits were issued. The sole and exclusive remedy of the department and the commissioner shall be to seek collection of the amount of such tax credits from the entity that committed the fraud or misrepresentation.

(g) The aggregate amount of all tax credits which may be reserved by the [commission] department pursuant to this section shall not exceed fifteen million dollars in any one fiscal year.

(h) The [commission] department, in consultation with the commissioner, shall adopt regulations, in accordance with the provisions of chapter 54, as may be necessary for the administration of this section.

(b) Each application for a license or for a renewal thereof shall be made in writing, on such forms and in such manner as is prescribed by the Department of Consumer Protection and accompanied by such evidence in support of such application as is prescribed by the commission. The commission may require such information with regard to an applicant as the commission deems desirable, with due regard to the paramount interests of the public, as to the honesty, truthfulness, integrity and competency of the applicant and, where the applicant is a corporation, association or partnership, as to the honesty, truthfulness, integrity and competency of the officers of such corporation or the members of such association or partnership.

(c) In order to determine the competency of any applicant for a real estate broker's license or a real estate salesperson's license the commission shall, on payment to the commission of an application fee of [sixty] one hundred twenty dollars by an applicant for a real estate broker's license or on payment to the commission of an application fee of [forty] eighty dollars by an applicant for a real estate salesperson's license, subject such applicant to personal written examination as to the applicant's competency to act as a real estate broker or real estate salesperson, as the case may be. Such examination shall be prepared by
the Department of Consumer Protection or by a national testing service designated by the Commissioner of Consumer Protection and shall be administered to applicants by the Department of Consumer Protection or by such testing service at such times and places as the commissioner may deem necessary. The commission may waive the uniform portion of the written examination requirement in the case of an applicant who has taken the national testing service examination in another state within two years from the date of application and has received a score deemed satisfactory by the commission. The Commissioner of Consumer Protection shall adopt regulations, in accordance with chapter 54, establishing passing scores for examinations. In addition to such application fee, applicants taking the examination administered by a national testing service shall be required to pay directly to such testing service an examination fee covering the cost of such examination. Each payment of such application fee shall entitle the applicant to take such examination four times within the one-year period from the date of payment.

(d) (1) Each applicant for a real estate broker's license shall, before being admitted to such examination, prove to the satisfaction of the commission: (A) (i) That the applicant has been actively engaged for at least two years as a licensed real estate salesperson under the supervision of a licensed real estate broker in this state, (ii) that the applicant has successfully completed a course approved by the commission in real estate principles and practices of at least sixty classroom hours of study, (iii) that the applicant has successfully completed a course approved by the commission in real estate appraisal consisting of at least thirty classroom hours of study, and (iv) that the applicant has successfully completed a course approved by the commission consisting of at least thirty classroom hours as prescribed by the commission, or (B) that the applicant has equivalent experience or education as determined by the commission.

(f) All licenses issued under the provisions of this chapter shall expire annually. At the time of application for a real estate broker's license, there shall be paid to the commission, for each individual applicant and for each proposed active member or officer of a firm, partnership, association or corporation, the sum of [four hundred fifty] five hundred sixty-five dollars, and for the annual renewal thereof, the sum of three hundred seventy-five dollars and for a real estate salesperson's license two hundred eighty-five dollars and for the annual renewal thereof the sum of two hundred eighty-five dollars. Three dollars of each such annual renewal fee shall be payable to the Real Estate Guaranty Fund established pursuant to section 20-324a. If a license is not issued, the fee shall be returned. A real estate broker's license issued to any partnership, association or corporation shall entitle the individual designated in the application, as provided in section 20-312, upon compliance with the terms of this chapter, but without the payment of any further fee, to perform all of the acts of a real estate broker under this chapter on behalf of such partnership, association or corporation. Any license which expires and is not renewed pursuant to this subsection may be reinstated by the commission, if, not later than two years after the date of expiration, the former licensee pays to the commission for each real estate broker's
license the sum of three hundred seventy-five dollars and for each real estate salesperson's license the sum of two hundred eighty-five dollars for each year or fraction thereof from the date of expiration of the previous license to the date of payment for reinstatement, except that any licensee whose license expired after such licensee entered military service shall be reinstated without payment of any fee if an application for reinstatement is filed with the commission within two years after the date of expiration. Any such reinstated license shall expire on the next succeeding April thirtieth.

(g) Any person whose application has been filed as provided in this section and who is refused a license shall be given notice and afforded an opportunity for hearing as provided in the regulations adopted by the Commissioner of Consumer Protection.

(a) The commission shall, upon completion of the investigation and inspection as provided in section 20-329e, as amended by [this act] section 31 of public act 09-74, but, in the absence of any agreement to the contrary between the applicant and the commission, not later than three months from the receipt of the completed license application, or receipt of an effective statement of record filed with the Secretary of Housing and Urban Development and filed with the commission pursuant to subsection (c) of section 20-329b, (1) approve or disapprove the prospectus, property report or offering statement submitted under subsection (c) of section 20-329b or section 20-329d, as the case may be, and (2) if satisfied, issue to the applicant, upon payment to the commission of a fee computed as provided in subsection (b) of this section, a license to offer and dispose of in this state the subdivision or parcels, units or other interests in any subdivision that is the subject of the application or such effective

(5) The farm winery permittee shall grow on the premises of the farm winery or on property under the same ownership and control of said permittee or leased by the backer of a farm winery permit or by said permittee within the farm winery's principal state an average crop of fruit equal to not less than twenty-five per cent of the fruit used in the manufacture of the farm winery permittee's wine. An average crop shall be defined each year as the average yield of the farm winery permittee's two largest annual crops out of the preceding five years, except that during the first seven years from the date of issuance of a farm winery permit, an average crop shall be defined as three tons of grapes for each acre of vineyard farmed by the farm winery permittee. In the event the farm winery consists of more than one property, the aggregate acreage of the farm winery shall not be less than five acres.

Sec. 328. Section 30-17 of the general statutes is repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

(a) (1) A wholesaler permit shall allow the bottling of alcoholic liquor and the wholesale sale of alcoholic liquor to permittees in this state and without the state, as may be permitted by law, and the sale of alcoholic liquors to vessels engaged in coastwise or foreign commerce, and the sale of alcohol and alcoholic liquor for industrial purposes to nonpermittees, such sales to be made in accordance with the regulations adopted by the Department of Consumer Protection, and the sale of alcohol and alcoholic liquor for medicinal purposes to hospitals and charitable institutions and to religious organizations for sacramental purposes and the receipt from out-of-state shippers of multiple packages of alcoholic liquor. The holder of a wholesaler permit may apply for and shall thereupon receive an out-of-state shipper's permit for direct importation from abroad of alcoholic liquors manufactured outside the United States and an out-of-state shipper's permit for direct importation from abroad of beer manufactured outside the United States. The annual fee for a wholesaler permit shall be two thousand [four] six hundred fifty dollars.

(2) When a holder of a wholesaler permit has had the
distributorship of any alcohol, beer, spirits or wine product of a manufacturer or out-of-state shipper for six months or more, such distributorship may be terminated or its geographic territory diminished upon (A) the execution of a written stipulation by the wholesaler and manufacturer or out-of-state shipper agreeing to the change and the approval of such change by the Department of Consumer Protection; or (B) the sending of a written notice by registered mail, return receipt requested, by the manufacturer or out-of-state shipper to the wholesaler, a copy of which notice has been sent simultaneously by registered mail, return receipt requested, to the Department of Consumer Protection. No such termination or diminishment shall become effective except for just and sufficient cause, provided such cause shall be set forth in such notice and the Department of Consumer Protection shall determine, after hearing, that just and sufficient cause exists. If an emergency occurs, caused by the wholesaler, prior to such hearing, which threatens the manufacturers' or out-of-state shippers' products or otherwise endangers the business of the manufacturer or out-of-state shipper and said emergency is established to the satisfaction of the Department of Consumer Protection, the department may temporarily suspend such wholesaler permit or take whatever reasonable action the department deems advisable to provide for such emergency and the department may continue such temporary action until its decision after a full hearing. The Department of Consumer Protection shall render its decision with reasonable promptness following such hearing. Notwithstanding the aforesaid, a manufacturer or out-of-state shipper may appoint one or more additional wholesalers as the distributor for an alcohol, spirits or wine product within such territory, provided such appointment shall not be effective until six months from the date such manufacturer or out-of-state shipper sets forth such intention in written notice to the existing wholesaler by registered mail, return receipt requested, with a copy of such notice simultaneously sent by registered mail, return receipt requested, to the Department of
Consumer Protection. For just and sufficient cause, a manufacturer or out-of-state shipper may appoint one or more additional wholesalers as the distributor for a beer product within such territory provided such manufacturer or out-of-state shipper sets forth such intention and cause in written notice to the existing wholesaler by registered mail, return receipt requested, with a copy of such notice simultaneously sent by registered mail, return receipt requested, to the Department of Consumer Protection. For the purposes of this section, "just and sufficient cause" means the existence of circumstances which, in the opinion of a reasonable person considering all of the equities of both the wholesaler and the manufacturer or out-of-state shipper warrants a termination or a diminishment of a distributorship as the case may be. For the purposes of this section, "manufacturer or out-of-state shipper" means the manufacturer or out-of-state shipper who originally granted a distributorship of any alcohol, beer, spirits or wine product to a wholesaler, any successor to such manufacturer or out-of-state shipper, which successor has assumed the contractual relationship with such wholesaler by assignment or otherwise, or any other manufacturer or out-of-state shipper who acquires the right to ship such alcohol, beer, spirits or wine into the state.

(3) Nothing contained herein shall be construed to interfere with the authority of the Department of Consumer Protection to retain or adopt reasonable regulations concerning the termination or diminishment of a distributorship held by a wholesaler for less than six months.

(4) All hearings held hereunder shall be held in accordance with the provisions of chapter 54.

(b) A wholesaler permit for beer shall be in all respects the same as a wholesaler permit, except that the scope of operations of the holder shall be limited to beer; but shall not prohibit the handling of nonalcoholic merchandise. The holder of a wholesaler permit for beer may apply for and shall thereupon receive an out-of-state shipper's
permit for direct importation from abroad of beer manufactured outside the United States. The annual fee for a wholesaler permit for beer shall be [eight hundred] one thousand dollars.

Sec. 329. Section 30-17b of the general statutes is repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

(a) No person shall be employed by any wholesaler of alcoholic liquor to sell or offer for sale alcoholic liquor to any retailer of alcoholic liquor unless such person holds a wholesaler's salesman certificate or files an application for such certificate not later than ten days after the date of his initial employment. Any person desiring a wholesaler's salesman certificate or renewal thereof, shall file a sworn application for such certificate upon forms to be furnished by the Department of Consumer Protection, showing his name, address and such other information as the department may require. An application for an initial certificate shall be accompanied by a nonrefundable fee in the amount of [twenty-five] fifty dollars. Upon approval of such application, the department shall issue a certificate which shall be renewed only upon change of employment. If a certified wholesaler's salesman changes employment, a renewal application shall be filed not later than ten days after the date such new employment commences and shall be accompanied by a nonrefundable fee in the amount of [twenty-five] fifty dollars.

(b) The department shall not issue a wholesaler's salesman certificate to any person who is, by statute or regulation, declared to be an unsuitable person to hold a permit to sell alcoholic liquor.

(c) The Department of Consumer Protection may, in its discretion, refuse a certificate to a wholesaler's salesman if it has reasonable ground to believe: (1) That the applicant appears to be financially irresponsible; (2) that the applicant is in the habit of using alcoholic beverages to excess; (3) that the applicant has wilfully made any false
statement to the department in a material matter; or (4) that the applicant has been convicted of violating any of the liquor laws of this or any other state or the liquor laws of the United States or has been convicted of a felony as such term is defined in section 53a-25 or has such a criminal record that the department reasonably believes he is not a suitable person to hold a certificate, provided no refusal shall be rendered under this subdivision except in accordance with the provisions of sections 46a-80 and 46a-81.

(d) The Department of Consumer Protection may, of its own motion, revoke or suspend a wholesaler's salesman certificate upon cause found after hearing, provided ten days' written notice of such hearing has been given to the holder of the certificate setting forth, with the particulars required in civil pleadings, the charges upon which such proposed revocation or suspension is predicated and provided no certificate shall be suspended or revoked for any violation of this chapter of which the holder of the certificate was finally found not guilty by, or received dismissal in, a court having jurisdiction thereof, and no disciplinary action shall be taken thereafter by said department against the holder of the certificate, and provided the department shall not initiate hearing proceedings pursuant to this section based upon any arrest which has not resulted in a conviction. Any appeal from such order of revocation or suspension shall be taken in accordance with the provisions of section 4-183.

(e) Any person who applies for a wholesaler's salesman certificate or for the renewal of such certificate, whose application is refused or any person who holds a certificate which is revoked or suspended by the Department of Consumer Protection may appeal therefrom in the same manner as provided in section 30-60.

Such regulations shall include such provisions as the commissioner deems necessary to carry
out the purposes of sections 22a-449a to 22a-449h, inclusive, as amended by this act, including, but not limited to, provisions for (1) notification of eligible parties of the existence of the account; (2) records required for submission of claims and reimbursement and payment; (3) periodic and partial reimbursement and payment to enable responsible parties to meet interim costs, expenses and obligations; and (4) reimbursement and payment for costs, expenses and obligations incurred in connection with releases or suspected releases discovered before or after July 5, 1989, provided reimbursement and payment shall not be made for costs, expenses and obligations incurred by a responsible party on or before said date.

(b) (1) The commissioner, in accordance with the procedures set forth in subdivision (2) of this subsection, may prescribe a schedule for the maximum or range of amounts to be paid [from the account] for labor, equipment, materials, services or other costs, expenses or obligations paid or incurred as a result of a release or suspected release. Such schedule shall not be a regulation, as defined in section 4-166 and the adoption, modification, repeal or use of such schedule shall not be subject to the provisions of chapter 54 concerning a regulation. The amounts in any such schedule may be less than and shall be not more than the usual, customary and reasonable amounts charged, as determined by the commissioner. Notwithstanding the provisions of sections 22a-449a to 22a-449j, inclusive, as amended by this act, or any regulation adopted by the commissioner pursuant to this section, upon adoption of any such schedule, the amount to be paid [from the account] for any labor, equipment, materials, services or other costs, expenses or other obligations, shall not exceed the amount established in any such schedule and such schedule may serve as guidance with respect to any costs, expenses or other obligations paid or incurred before the adoption of such schedule.

(2) The commissioner shall adopt, revise or revoke the schedule in
accordance with the provisions of this subsection. After consultation with the board, the commissioner shall publish notice of intent to adopt, revise or revoke the schedule, or any portion thereof, in a newspaper having substantial circulation in the affected area. There shall be a comment period of thirty days following publication of such notice during which interested persons may submit written comments to the commissioner. The commissioner shall publish notice of the adoption, revision or revocation of the schedule, or part thereof, in a newspaper having substantial circulation in the affected area. The commissioner shall, upon request, review the schedule and shall make any revisions the commissioner deems necessary to such schedule once every two years or may do so more frequently as the commissioner deems necessary. The commissioner, after consultation with the board, may revise or revoke the schedule, in whole or in part, using the procedures specified in this subsection. Any person may request that the commissioner adopt, revise or revoke the schedule in accordance with this subsection.

Sec. 426. Section 22a-449f of the general statutes is repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

(a) A responsible party may apply to the Underground Storage Tank Petroleum Clean-Up [Account] Review Board established under section 22a-449d, as amended by this act, for reimbursement for costs paid and payment of costs incurred as a result of a release, or a suspected release, including costs of investigating and remediating a release, or a suspected release, incurred or paid by such party who is determined not to have been liable for any such release. If a person other than a responsible party, claims to have suffered bodily injury, property damage or damage to natural resources from a release, the person with such claim shall make reasonable attempts to provide written notice to the responsible party of such claim and if such person cannot provide such notice or if the responsible party does not apply
to the board for payment of such claim not later than sixty days after receipt of such notice or such other time as may be agreed to by the parties, the person holding such claim may apply to the board for payment for such damage or bodily injury.

(b) (1) In addition to all other applicable requirements, a person seeking payment or reimbursement from the account shall demonstrate that when the total costs, expenses or other obligations in response to a release or suspected release (A) are two hundred fifty thousand dollars or less, all labor, equipment and materials provided after October 1, 2005, and all services and activities undertaken after October 1, 2005, are approved, in writing, either by the commissioner or by a licensed environmental professional with a currently valid and effective license issued pursuant to section 22a-133v, as amended by this act; and (B) exceed two hundred fifty thousand dollars, all labor, equipment and materials provided after October 1, 2005, and all services and activities undertaken after October 1, 2005, are approved, in writing, by the commissioner, provided the commissioner may authorize, in writing, a licensed environmental professional with a currently valid and effective license issued pursuant to section 22a-133v, as amended by this act, to approve, in writing, such labor, equipment, materials, services and activities, in lieu of the commissioner. The provisions of this subsection shall apply to all costs, expenses or other obligations for which a person is seeking payment or reimbursement from the account and the board shall not order and the commissioner shall not make payment or reimbursement from the account for any cost, expense or other obligation, unless the person seeking such payment or reimbursement provides the written approval required by this subdivision. Any written approval provided by a licensed environmental professional pursuant to this subdivision shall be submitted with the application for payment or reimbursement. Any written approval provided by the commissioner pursuant to this subdivision shall not constitute an approval pursuant to any other
House Bill No. 6802

provision of the general statutes or any regulation and shall be presented to the board prior to the board making a decision regarding the application that such approval concerns.

(2) The fees charged by a licensed environmental professional regarding labor or services rendered in response to a release or suspected release may be included in any application or request for payment or reimbursement submitted to the board. The amount to be paid or reimbursed [from the account] for such fees may also be established in the schedule adopted by the commissioner pursuant to subsection (b) of section 22a-449e, as amended by this act.

(3) Providing it is true and accurate, a licensed environmental professional shall submit the following certification regarding any approval provided under subdivision (1) of this subsection and section 22a-449p, as amended by this act: "I hereby agree that all of the labor, equipment, materials, services, and activities described in or covered by this certification were appropriate under the circumstances to abate an emergency or were performed as part of a plan specifically designed to ensure that the release or suspected release is or has been investigated in accordance with prevailing standards and guidelines and remediated consistent with and to achieve compliance with the remediation standards adopted under section 22a-133k of the general statutes."

(c) The board shall order reimbursement or payment [from the account] for any cost paid or incurred, as the case may be, if, (1) such cost is or was incurred after July 5, 1989, (2) a responsible party was or would have been required to demonstrate financial responsibility under 40 CFR Part 280.90 et seq. as said regulation was published in the Federal Register of October 26, 1988, for the underground storage tank or underground storage tank system from which the release emanated, whether or not such party is required to comply with said requirements on the date any such cost is incurred, provided if the

state is the responsible party, the board may order payment, [from the account] within available resources, without regard to whether the state was or would have been required to demonstrate financial responsibility under said sections 40 CFR Part 280.90 et seq., (3) after the release, if any, the responsible party incurred a cost, expense or obligation for investigation, cleanup or for claims of a person other than a responsible party resulting from the release, provided any such claim shall be required to be finally adjudicated or settled with the prior written approval of the board before an application for reimbursement or payment is made, (4) the board determines that the cost, expense or other obligation is reasonable and that there are not grounds for recovery specified in subdivision (1) or (3) of subsection (g) of this section, (5) the responsible party notified the board, as soon as practicable, of the release and of any other claim by a person other than a responsible party, resulting from the release, in accordance with the regulations adopted pursuant to section 22a-449e, as amended by this act, (6) the responsible party, or, if a person other than a responsible party applies for payment or reimbursement from the account, then such person demonstrates the remediation, including any monitoring to determine the effectiveness of the remediation, for which payment or reimbursement is sought is not more stringent than that required by the remediation standards established pursuant to section 22a-133k, except to the extent the responsible party or such person demonstrates that it has been directed otherwise, in writing, by the commissioner, (7) the responsible party, or, if a person other than a responsible party applies for payment or reimbursement, [from the account,] then such person demonstrates that it does not have insurance, or a contract or other agreement to provide payment or reimbursement for any cost, expense or other obligation incurred in response to a release or suspected release, or if there is any such insurance, contract or other agreement, that any insurance coverage has been denied or is insufficient to cover the costs, expenses or other obligations, paid or incurred or that any contract or other agreement is
House Bill No. 6802

not able to or is insufficient to cover the costs, expenses or other obligations, paid or incurred, for which payment or reimbursement is sought [from the account,] (8) the responsible party demonstrates and the board determines that one of the milestones noted in section 22a-449p, as amended by this act, has been completed, (9) the board determines what, if any, reductions to the amounts sought [from the account] should be made based upon the compliance evaluations performed pursuant to subsection (d) of this section, and (10) at the time any application or request for payment or reimbursement, including any supplemental application or request, is submitted to the board, (A) for applications filed with the underground storage tank petroleum clean-up [account] review board on or after October 1, 2007, there is no underground storage tank system subject to the financial responsibility demonstration required in subdivision (2) of this subsection dispensing petroleum on the property where the release or suspected release emanated or occurred, and if the application is submitted by the person who owns or operates or who owned or operated the underground storage tank system at the time of the release, such person demonstrates, in addition to all other applicable requirements, that lack of compliance with provisions of the general statutes and regulations governing underground storage tank systems was not a proximate cause of the release or suspected release and that there are not grounds for recovery specified in subdivision (2) of subsection (g) of this section, or (B) for applications filed with the [underground storage tank petroleum clean-up account] Underground Storage Tank Petroleum Clean-Up Review Board prior to October 1, 2007, there is no underground storage tank system dispensing petroleum on the property where the release or suspected release emanated or occurred, and if the application is submitted by the person who owns or operates or who owned or operated the underground storage tank system at the time of the release, such person demonstrates, in addition to all other applicable requirements, that lack of compliance with provisions of the general statutes and
regulations governing underground storage tank systems was not a proximate cause of the release or suspected release and that there are not grounds for recovery specified in subdivision (2) of subsection (g) of this section. Subdivision (10) of this subsection shall not apply to any application filed with the underground storage tank petroleum clean-up account concerning a release of an underground storage tank system that was reported to the Commissioner of Environmental Protection in September, 2003 where such system was owned or operated by a municipality or other political subdivision of the state at the time of the release and such system was removed on or before April 1, 2005. In acting on an application or a request for payment or reimbursement, the board, using funds from the account, may contract with experts, including, but not limited to, attorneys and medical professionals, to better evaluate and defend against claims and negotiate claims by persons other than responsible parties. The costs of the board for experts shall not be charged to the amount allocated to the Department of Environmental Protection pursuant to section 22a-449c, as amended by this act. If a person other than a responsible party applies to the board claiming to have suffered bodily injury, property damage or damage to natural resources, the board shall order reimbursement or payment [from the account] if such person demonstrates that subdivisions (1), (2), (6) and (7) of this subsection are satisfied, the board determines that as a result of a release or suspected release such person has suffered bodily injury, property damage or damage to natural resources, that the costs, expenses or other obligations incurred are reasonable and the person submitting such claim demonstrates that it has attempted to or has provided written notice of its claim to the responsible party as required in subsection (a) of this section and that the responsible party has not applied to the board for payment or reimbursement of this claim. On or before June 30, 2005, if the board denied reimbursement or provided for only partial payment or reimbursement from the account regarding a release, pursuant to subdivision (4) of this subsection, such denial or
House Bill No. 6802

partial payment or reimbursement shall remain in effect and shall apply to all subsequent applications or requests for payment or reimbursement regarding such release.

(d) (1) Except as provided in this subsection, if at the time any application or request for payment or reimbursement is submitted to the board, including any supplemental application or request, there is an underground storage tank system dispensing petroleum on the property where the release or suspected release emanated or occurred, such application or request shall not be deemed complete and shall not be acted upon by the board unless such application or request includes a summary of the compliance status of all the underground storage tank systems on the subject property. Any such summary shall include an evaluation of compliance with the design, construction, installation, notification, general operating, release detecting, system upgrading, abandonment and removal date requirements of the regulations adopted pursuant to sections 22a-449, as amended by this act, and 22a-449o, as amended by this act, and shall be prepared by an independent consultant on a form prescribed by or acceptable to the commissioner. The summary shall be based on an evaluation of said underground storage tank systems performed not more than one hundred eighty days before the board receives an application or a request for reimbursement or payment, except that with respect to any provision of the subject regulations regarding record keeping, periodic monitoring or testing, the summary shall be based on an evaluation of a one-year period terminating within one hundred eighty days prior to the board's receipt of an application or a request for payment or reimbursement. The summary shall also include a full description of all corrective measures that have been taken or that are being taken with regard to any noncompliance identified in the compliance evaluation performed pursuant to this subdivision.

(2) With respect to any initial application or request for payment or
reimbursement regarding a release or suspected release the provisions of subdivision (1) of this subsection shall apply only to applications or requests received on or after January 1, 2006. With respect to any supplemental application or request for payment or reimbursement regarding a release or suspected release, the provisions of subdivision (1) of this subsection shall apply to each application or request submitted to the board on or after January 1, 2006, regardless of when the initial application or request was submitted, except that submission of a compliance summary shall not be required if at the time a supplemental application or request is submitted, less than one year has passed since the performance of a compliance evaluation submitted with any prior application or request.

(3) The cost of hiring an independent consultant to perform a compliance evaluation, as required by this subsection, shall be eligible for payment or reimbursement [from the account] up to a maximum of one thousand dollars per compliance evaluation, provided the evaluation is in conformance with the requirements of this subsection and includes all underground storage tank systems on the property where a release or suspected release emanated or occurred. If the schedule adopted by the commissioner pursuant to subsection (b) of section 22a-449e, as amended by this act, includes an amount for performing a compliance evaluation, upon adoption of any such schedule, the amount eligible for payment or reimbursement for performing a compliance evaluation shall be the amount prescribed in any such schedule.

(4) Nothing in this subsection shall affect the continued applicability of any decision of the board to (A) deny reimbursement or payment [from the account] or (B) provide only partial payment or reimbursement regarding all applications or requests for payment or reimbursement [from the account]. Any such decision shall remain in effect and shall not be subject to reconsideration or reevaluation as a
result of this subsection.

(5) Except as provided for in this subdivision, if at the time any application or request for payment or reimbursement, including any supplemental application or request, is submitted, there is no underground storage tank system dispensing petroleum on the property where the release or suspected release emanated or occurred, any such application or request shall be subject to the provisions of subdivision (10) of subsection (c) of this section, even where a prior application or request was subject to the provisions of this subsection. The provisions of this subdivision shall not apply to an application or request for payment or reimbursement for annual groundwater remedial actions, including the preparation of a groundwater remedial action progress report, performed pursuant to subdivision (6) of section 22a-449p, as amended by this act.

(e)(1) If the compliance evaluation summary performed pursuant to subsection (d) of this section indicates that any of the violations noted in this subdivision exist with respect to any underground storage tank or underground storage tank system on the property at which a release or suspected release occurred and any such violations have not been fully corrected by the time an application or request for reimbursement is submitted to the board, the board shall reduce any payment or amount to be reimbursed as follows: (A) A one hundred per cent reduction of the payment or amount to be reimbursed for failure to meet the tank or piping construction requirements of section 22a-449o, as amended by this act, or the regulations adopted pursuant to section 22a-449, as amended by this act, or for failure to report the release to the commissioner as required by this section, (B) a seventy-five per cent reduction of the payment or amount to be reimbursed for failure to have properly functioning cathodic protection, spill prevention, overfill prevention, or release detection as required by the regulations adopted pursuant to section 22a-449, as amended by this act.
**House Bill No. 6802**

Notwithstanding the provisions of this subsection, the board may reduce any amount to be paid or reimbursed based on any other violation of the provisions of the general statutes or regulations of Connecticut state agencies regarding ownership or operation of an underground storage tank system.

(2) Nothing in this subsection and no determination by the board of any issue of fact or law shall affect the authority of the commissioner under any other statute or regulations, including, but not limited to, taking any enforcement action based upon the violations identified in any compliance evaluation performed pursuant to subsection (d) of this section.

(f) (1) For all work or services performed or materials provided before October 1, 2004, the board shall not order payment or reimbursement [from the account] for any cost paid or incurred, unless when seeking payment or reimbursement, the application or any submission regarding work, services or materials that have been pre-authorized by the board is received by the board on or before April 1, 2005.

(2) For purposes of this subsection, work or services shall be deemed rendered or performed on the date such work is rendered or performed and a material shall be deemed provided on the date a material is made available for use.

(3) After June 30, 2005, the board shall not order payment or reimbursement [from the account] for any cost, expense or other obligation, paid or incurred, unless the application or request for payment or reimbursement is received by the board not later than one year after the completion of all or substantially all of the work or activities necessary to prepare the plan or report required by the milestones set forth in section 22a-449p, as amended by this act.
(g) The Attorney General, upon the request of the board or the commissioner, may institute an action in the superior court for the judicial district of Hartford to recover the amounts specified in this section from any person who owns or operates an underground storage tank system at the time a release emanates or occurs from such system or any person who owns the real property on which a release emanates or occurs, provided such person owned the real property at or any time after the release emanates or occurs until the time that a final remediation action report is submitted by a licensed environmental professional or approved by the commissioner pursuant to subdivision (7) of section 22a-449p, as amended by this act, if: (1) Prior to the occurrence of the release, the underground storage tank or underground storage tank system from which the release emanated was required by regulations adopted under section 22a-449, as amended by this act, to be the subject of an Underground Storage Facility Notification Form, or EPHM-6 but the person who owns or operates or who owned or operated such tank or tank system knowingly and intentionally failed to submit such notification form to the commissioner; (2) the release results from a reckless, wilful, wanton or intentional act or omission of such person or a negligent act or omission of such person that constitutes noncompliance with the general statutes or regulations governing the installation, operation and maintenance of underground storage tanks; or (3) the release occurs from an underground storage tank or system which is not in compliance with a final order issued by the commissioner pursuant to this chapter or a final judgment issued by a court concerning noncompliance with a requirement of this chapter; or (4) payment has been made, including payment to the commissioner pursuant to subsection (i) of this section, to a person other than a person against whom an action may be brought pursuant to this subsection. All costs to the state relating to actions to recover such payments, including, but not limited to, reasonable attorneys' fees, shall initially be paid from the underground storage tank.

petroleum clean-up account within available resources. In any recovery the board or the commissioner is entitled to recover from such person (A) all payments made with respect to a release or suspected release, (B) all payments made by the commissioner pursuant to subsection (i) of this section with respect to a release or suspected release, (C) interest on such payments at a rate of ten per cent per year from the date such payments were made, and (D) all costs of the state relating to actions to recover such payments, including, but not limited to, reasonable attorneys' fees. All actions brought pursuant to this section shall have precedence in the order of trial, as provided in section 52-191. If the Attorney General has filed an action against a person seeking recovery of the amounts specified in this subsection or if the commissioner sends a person a demand letter regarding costs incurred by the state pursuant to section 22a-451, as amended by this act, any such person against whom an action has been brought or who receives a demand letter shall not submit an application or request for payment or reimbursement to the board seeking payment or reimbursement of any such amount sought by the Attorney General or by the commissioner. If any such application or request for payment or reimbursement is submitted, the board shall not take any action regarding any such application or request.

(h) The board shall render its decision not more than ninety days after receipt of an application from a person, provided, in the case of a second or subsequent application, the board shall render its decision not more than forty-five days after receipt of such application. A copy of the decision shall be sent to the commissioner and the person seeking payment or reimbursement by certified mail, return receipt requested. The commissioner or any person aggrieved by the decision of the board may, within twenty days from the date of issuance of such decision, request a hearing before the board in accordance with the provisions of chapter 54. After such hearing, the board shall consider the information submitted to it and affirm or modify its decision on the
(i) Whenever the commissioner determines that as a result of a release, as defined in section 22a-449a, or a suspected release, a clean-up is necessary, including, but not limited to, actions to prevent or abate pollution or a potential source of pollution and to provide potable drinking water, the commissioner may undertake such actions using not more than one million dollars from the underground storage tank petroleum clean-up account, within available resources, for each release or suspected release from an underground storage tank or an underground storage tank system for which the responsible party is the state or for which a responsible party was or would have been required to demonstrate financial responsibility under 40 CFR Part 280.90 et seq., as said regulation was published in the Federal Register of October 26, 1988.

(j) (1) If through an initial application or request for payment or reimbursement received by the board before June 1, 2005, the board has determined that a person has paid or incurred costs, expenses or other obligations that are eligible for payment or reimbursement from the account, with respect to any supplemental application or request for payment or reimbursement the following shall apply. The commissioner may identify a category of activities, costs, expenses, or other obligations that are less than one hundred thousand dollars for which, in lieu of full payment, the board may approve a percentage of the costs, expenses or other obligations paid or incurred. In making any such recommendation to the board, the commissioner shall
House Bill No. 6802

consider the amounts previously paid from the account and any other information the commissioner deems relevant. Any such percentage shall be not more than, but may be less than, ninety per cent of the average amount, as determined by the commissioner, previously paid from the account for any activity, cost, expense or obligation. The board shall approve or disapprove, but shall not modify, payment of the percentage recommended by the commissioner pursuant to this subdivision. The commissioner may, using the procedures specified in this subdivision, recommend changes to any percentage previously approved by the board under this subdivision.

(2) If the board approves payment of the percentage recommended by the commissioner, a person with a supplemental application or request for payment or reimbursement may agree to accept the percentage payment approved by the board. Any such acceptance shall be in writing, signed by the person seeking payment or reimbursement and shall acknowledge that the person is agreeing to accept less than the full amount sought by such person for the costs, expenses or other obligations covered by such acceptance. If the commissioner has prescribed forms, any such acceptance shall be made using the forms prescribed by the commissioner. Once a completed written acceptance is received, the board shall, not later than ninety days after receiving such acceptance, determine whether to order payment or reimbursement from the account. Any such determination by the board shall be limited to whether the costs, expenses or other obligations are within those for which the board has approved payment pursuant to subdivision (1) of this subsection.

(3) Any amount ordered to be paid or reimbursed by the board shall be considered full payment for any such activity, expense or other obligation and a person shall not seek any additional reimbursement [from the account] for any such activity, expense or other obligation. The categories or activities for which the commissioner recommends
House Bill No. 6802

payment of a percentage pursuant to this subsection may constitute all or a portion of the amounts sought in a supplemental application or supplemental request for payment or reimbursement.

(k) Notification to the commissioner pursuant to regulations adopted pursuant to section 22a-449, as amended by this act, shall constitute compliance with any regulation adopted pursuant to section 22a-449e, as amended by this act, regarding notification to the board of a release.

Sec. 427. Section 22a-449k of the general statutes, as amended by section 2 of public act 09-122, is repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

No person shall remove or replace or subcontract for the removal or replacement of a residential underground heating oil storage tank system if the person finds such removal or replacement will involve remediation of contaminated soil or groundwater, [the costs of which are to be paid out of the residential underground heating oil storage tank system clean-up subaccount established pursuant to subsection (b) of section 22a-449c,] unless the person is a registered contractor. To become a registered contractor, a person shall provide to the Commissioner of Environmental Protection, on forms prescribed by said commissioner, (1) evidence of financial assurance in the form of liability insurance coverage or liquid company assets in an amount not less than one million dollars, and (2) a written statement certifying that such person has had any training required by law for such business and that such person has (A) performed no fewer than three residential underground petroleum storage tank system removals, or (B) has contracted for at least three removals of residential underground petroleum storage tank systems. Such person shall pay a registration fee of [seven hundred fifty nine hundred forty dollars to the commissioner. Each contractor holding a valid registration on July first shall, not later than August first of that year, pay a renewal fee to the
House Bill No. 6802

commissioner of [three hundred seventy-five] four hundred seventy dollars in order to maintain such registration. Any money collected for registration pursuant to this section shall be deposited in the [Environmental Quality] General Fund. The commissioner may revoke a registration for cause and, on and after the date the review board establishes requirements for financial assurance, training and performance standards under subsection (c) of section 22a-449d, as amended by this act, may reject any application for registration that does not meet such requirements.

Sec. 428. Section 22a-449l of the general statutes is repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

(a) As used in this section, "registered contractor" means a person registered with the Commissioner of Environmental Protection pursuant to section 22a-449k, as amended by this act.

(b) Prior to July 1, 2001, if, in the course of removing or replacing a residential underground heating oil storage tank system, a registered contractor finds that there has been a spill, as defined in section 22a-452c, attributable to such system and such contractor estimates that the remediation of such spill is likely to cost more than five thousand dollars, such contractor shall immediately notify the Department of Environmental Protection regarding such spill. If, after the contractor's initial estimate, the contractor subsequently determines that such cost will exceed five thousand dollars, the contractor shall upon that determination notify the Department of Environmental Protection. The department may assess the spill and confirm that the remediation proposed by the contractor is appropriate and necessary, or may authorize an environmental professional licensed under section 22a-133v, as amended by this act, to assess the spill and make such confirmation. Any such remediation shall be subject to approval by the department, except that the department may authorize an environmental professional licensed under section 22a-133v, as
amended by this act, to make a recommendation regarding such approval. If a registered contractor estimates that the remediation of such spill is likely to cost more than ten thousand dollars, the commissioner or any agent of the commissioner or an environmental professional licensed under said section 22a-133v contracted by the department shall inspect the site and confirm that such remediation is reasonable. The costs of such an inspection shall be eligible for payment [under the residential underground heating oil storage tank system clean-up subaccount established under subsection (b) of section 22a-449c] within available resources.

(c) (1) In order to receive reimbursement of eligible costs for services commenced after July 1, 1999, and prior to July 1, 2001, a registered contractor shall on or before December 1, 2001, submit to the Underground Storage Tank Petroleum Clean-Up [Account] Review Board established under section 22a-449d for a disbursement from [the residential underground heating oil storage tank system clean-up subaccount] available resources, all reasonable costs for work commenced prior to July 1, 2001, pursuant to a contract with the owner or the state for the remediation of a residential underground heating oil storage tank system for the purpose of providing payment for the costs of such remediation. An owner of a residential underground heating oil storage tank system shall not be responsible to the registered contractor or any subcontractor of the registered contractor for any costs that are eligible for payment from the residential underground heating oil storage tank system clean-up [subaccount] program over five hundred dollars. The registered contractor or any subcontractor shall not bill the owner for any costs eligible for payment from said [subaccount] program over five hundred dollars unless the contractor or subcontractor enters into a separate written contract with the owner, on a form prescribed by the commissioner, authorizing the contractor or subcontractor to bill the owner more than five hundred dollars and such separate contract gives the owner the
right to cancel such contract up to three days after entering into it. Such owner shall provide to the review board a statement confirming the registered contractor has been engaged by such owner to remove or to replace such residential underground heating oil storage tank system and perform the remediation and shall execute an instrument which provides for payment to said account of any amounts realized by the owner, after any costs of litigation or attorney's fees have been paid, from a judgment or settlement regarding any claim for the costs of such remediation made against an insurance policy or any party. In any service contract entered into between a registered contractor and an owner for the remediation of a residential underground heating oil storage tank system, the registered contractor shall clearly identify all costs, including markup costs, that are not or may not be eligible for payment from under said subaccount program.

(2) The registered contractor shall submit documentation, satisfactory to the review board, of any costs associated with such remediation. The review board may deny remediation costs of the registered contractor that the review board determines are unreasonable based on the guidelines established pursuant to subsection (c) of section 22a-449d, as amended by this act, on and after the date the review board establishes such guidelines, and may deny remediation costs (A) in excess of five thousand dollars if the Department of Environmental Protection was not notified in accordance with the provisions of subsection (b) of this section, and (B) in excess of ten thousand dollars if the site was not inspected in accordance with the provisions of subsection (b) of this section. The review board shall deny any such costs in excess of fifty thousand dollars unless the commissioner determines such additional costs are warranted to protect public health and the environment. If a registered contractor fails to submit to the review board documentation of costs associated with such remediation that may be eligible for payment from the residential underground heating oil storage tank system
clean-up [subaccount] program or if the registered contractor submits documentation of such costs but the board denies payment of such costs, the registered contractor shall be liable for such costs and shall have no cause of action against the owner of the underground petroleum storage tank.

(3) A copy of the review board's decision shall be sent to the Commissioner of Environmental Protection and to the registered contractor by certified mail, return receipt requested. The commissioner or any contractor aggrieved by a decision of the review board may, not more than twenty days after the date the decision was issued, request a hearing before the review board in accordance with chapter 54. After such hearing, the board shall consider the information submitted to it and affirm or modify its decision on the reimbursement. A copy of the affirmed or modified decision shall be sent to the commissioner and any contractor by certified mail, return receipt requested.

(d) Neither the Underground Storage Tank Petroleum Clean-Up [Account] Review Board nor the Commissioner of Environmental Protection shall accept applications pursuant to this section on or after December 1, 2001, for the reimbursement of eligible costs for services completed prior to July 1, 2001, except that, notwithstanding subsection (c) of this section, prior to July 1, 2004, the board may accept applications for reimbursement from and make payments to any owner who demonstrates that the owner paid for eligible costs for services provided to the owner prior to July 1, 2001, and either (1) the registered contractor filed an application for reimbursement between December 1, 2001, and January 1, 2003, or (2) the owner, prior to May 1, 2003, filed a complaint with the board or the commissioner regarding the failure of the registered contractor to file a timely application.

Sec. 429. Subsection (a) of section 22a-449m of the general statutes is
repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

(a) Any remediation of contaminated soil or groundwater the cost of which is to be paid out of the [subaccount] program established under subsection [(b)] (a) of section 22a-449c, as amended by this act, shall be performed by or under the direct onsite supervision of a registered contractor, as defined in sections 22a-449l, as amended by this act, and 22a-449n, as amended by this act, and shall be performed in accordance with regulations adopted by the commissioner pursuant to section 22a-133k that establish direct exposure criteria for soil, pollutant mobility criteria for soil and groundwater protection criteria for GA and GAA areas. If the replacement of any such residential underground heating oil storage tank system performed pursuant to the provisions of this section involves installation of an underground petroleum storage tank, such tank shall conform to any standards which apply to new underground petroleum storage tanks.

Sec. 430. Section 22a-449n of the general statutes is repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

(a) As used in this section, "registered contractor" means a person registered with the Commissioner of Environmental Protection pursuant to section 22a-449k, as amended by this act, "qualifying income" means the owner's adjusted gross income, as defined in section 12-701, for the calendar year immediately preceding the year in which costs eligible for payment were incurred under this section and "costs eligible for payment" means costs that are reasonable for payment, as determined by the guidelines established pursuant to section 22a-449d, as amended by this act.

(b) If, in the course of removing or replacing a residential underground heating oil storage tank system, a registered contractor finds that there has been a spill, as defined in section 22a-452c,
House Bill No. 6802
attributable to such a system, or if such contractor estimates that the remediation of such spill is likely to cost more than ten thousand dollars then such contractor shall immediately notify the Department of Environmental Protection. The commissioner may assess the spill and confirm that the remediation proposed by the contractor is appropriate and necessary, or may authorize an environmental professional licensed under section 22a-133v, as amended by this act, to assess the spill and make such confirmation. Any such remediation shall be subject to approval by the commissioner. The commissioner may authorize an environmental professional licensed under section 22a-133v, as amended by this act, to make a recommendation regarding such approval. The costs of an inspection pursuant to this section shall be eligible for payment under the residential underground heating oil storage tank system clean-up [subaccount] program established under subsection (b) of section 22a-449c, as amended by this act. The commissioner may revoke a registration pursuant to section 22a-449k, as amended by this act, for failure of a contractor to notify the department as required by this section.

(c) On or after July 1, 2001, to be eligible for payment pursuant to this section, an owner shall submit the following information to the Commissioner of Environmental Protection, in such form as the commissioner may require, prior to entering into a contract with a registered contractor for remediation of a spill attributable to a residential underground heating oil storage tank system: (1) The name and Social Security number of the property owner; (2) a verification that such tank serves the owner's primary residence; (3) a verification of the owner's qualifying income; and (4) the name of the registered contractor who will perform the remediation. The commissioner shall, not later than thirty days following receipt of such information, send a written notice to the owner that specifies whether the owner is eligible for payment under this section, whether funds are available for the owner under this section and the amount of remediation costs for
which the owner is responsible prior to receiving payment under this section.

(d) Subject to the provisions of subsection (e) of this section, an owner may be reimbursed for all reasonable costs for work commenced on or after July 1, 2001, in accordance with the following: (1) If an owner's qualifying income is less than or equal to fifty thousand dollars, the owner may be reimbursed for costs eligible for payment in excess of five hundred dollars; (2) if an owner's qualifying income is greater than fifty thousand dollars and less than or equal to one hundred thousand dollars, the owner may be reimbursed for costs eligible for payment in excess of two thousand dollars; (3) if an owner's qualifying income is greater than one hundred thousand dollars and less than or equal to one hundred fifty thousand dollars, the owner may be reimbursed for costs eligible for payment in excess of four thousand dollars; (4) if an owner's qualifying income is greater than one hundred fifty thousand dollars and less than or equal to two hundred thousand dollars, the owner may be reimbursed for costs eligible for payment in excess of five thousand dollars; (5) if an owner's qualifying income is greater than two hundred thousand dollars and less than or equal to two hundred fifty thousand dollars, the owner may be reimbursed for costs eligible for payment in excess of seven thousand five hundred dollars; (6) if an owner's qualifying income is greater than two hundred fifty thousand dollars and less than or equal to five hundred thousand dollars, the owner may be reimbursed for costs eligible for payment in excess of ten thousand dollars; (7) if an owner's qualifying income is greater than five hundred thousand dollars, the owner is not eligible for payment of costs. No registered contractor or any subcontractor of a registered contractor shall accept payment for any costs eligible for payment from said [subaccount] program until it has provided the owner with the information necessary to apply for a disbursement pursuant to subsection (e) of this section.
House Bill No. 6802

(e) (1) On or after July 1, 2001, an owner shall submit to the Underground Storage Tank Petroleum Clean-Up [Account] Review Board established under section 22a-449d, as amended by this act, an application that is postmarked no later than December 31, 2001, for a disbursement from the residential underground heating oil storage tank system clean-up [subaccount] program, within available resources, documentation of all costs eligible for payment for work performed pursuant to a contract with the owner for the remediation of a residential underground heating oil storage tank system for the purpose of providing payment for the costs of such remediation, provided such owner has complied with the provisions of subdivisions (1) and (2) of subsection (a) of section 22a-449j and provided such remediation was completed on or before December 1, 2001. Such payments shall be made in accordance with subsection (d) of this section. Such owner shall provide to the review board a statement confirming that the registered contractor has been engaged by such owner to remove or to replace such residential underground heating oil storage tank system, except that a storage tank system and any associated ancillary equipment shall not be subject to such requirement and perform the remediation and shall execute an instrument which provides for payment to said account of any amounts realized by the owner, after any costs of litigation or attorney's fees have been paid, from a judgment or settlement regarding any claim for the costs of such remediation made against an insurance policy or any person.

(2) In any service contract entered into between a registered contractor and an owner for the remediation of a residential underground heating oil storage tank system, the registered contractor shall clearly identify all costs, including markup costs, that are not or may not be eligible for payment from said [subaccount] program.

(3) The owner shall submit documentation, satisfactory to the review board, of any costs associated with such remediation. The
House Bill No. 6802

review board may deny payment of remediation costs that the review board determines are unreasonable based on the guidelines established pursuant to subsection (c) of section 22a-449d, as amended by this act, on and after the date the review board establishes such guidelines. The review board shall deny any such costs if the owner fails to comply with subsection (c) of this section and any such costs in excess of fifty thousand dollars unless the commissioner determines such additional costs are warranted to protect public health and the environment.

(4) A copy of the review board's decision shall be sent to the Commissioner of Environmental Protection and to the owner by certified mail, return receipt requested. The commissioner or owner aggrieved by a decision of the review board may, not more than twenty days after the date the decision was issued, request a hearing before the review board in accordance with chapter 54. After such hearing, the board shall consider the information submitted to it and affirm or modify its decision. A copy of the affirmed or modified decision shall be sent to the commissioner and owner by certified mail, return receipt requested.

(5) No owner shall be entitled to reimbursement both under this section and section 22a-449l, as amended by this act.

Sec. 431. Section 22a-449p of the general statutes is repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

Notwithstanding any provision of sections 22a-449a to 22a-449i, inclusive, as amended by this act, or any regulation adopted pursuant to said sections, except as provided for in subdivision (6) of this section, with respect to the investigation and remediation of a release, the underground storage tank petroleum clean-up [account] program established pursuant to section 22a-449c, as amended by this act, shall be used to provide payment or reimbursement only when any of the
following milestones are completed:

(1) A release response report prepared by an environmental professional, as defined in section 22a-133v, as amended by this act, has been submitted to the Commissioner of Environmental Protection which report describes: (A) All initial response actions taken that are necessary to prevent an on-going release and to mitigate an explosion, fire or other safety hazard resulting from the release; (B) the results of an initial site investigation that determines the presence and extent of free product from the release, the potential for or existence of groundwater pollution from the release which threatens the quality of drinking water well or wells, and whether the release has resulted in soil vapors or indoor air that threatens public health; and (C) all interim actions taken and proposed to remove such free product to the extent technically practicable, to provide potable water to any person whose drinking water has been polluted by a substance from the release which is above the groundwater protection criteria or above a level determined by the Commissioner of Public Health to be an unacceptable risk of injury to the health or safety of persons using such groundwater as a public or private source of water for drinking or other personal or domestic uses, whichever is more stringent, and to mitigate any risk to public health from polluted soil vapor or indoor air resulting from the release.

(2) An interim remedial action report approved, in writing, by a licensed environmental professional has been submitted to the Commissioner of Environmental Protection or an interim remedial action report has been approved, in writing, by the commissioner. Such interim remedial action report shall describe in detail all interim remedial action taken to: (A) Remove free product to the maximum extent technically practicable; (B) ensure that all persons whose drinking water was polluted by the release have been provided potable water; and (C) ensure that soil vapors which pose a risk to
public health are prevented from migrating into any overlying buildings.

(3) An investigation report and remedial action plan approved, in writing, by a licensed environmental professional has been submitted to the Commissioner of Environmental Protection, or an investigation report and remedial action plan has been approved, in writing, by the commissioner. Such investigation report and remedial action plan shall include a detailed description of an investigation which determines the existing and potential extent and degree of soil, surface water, soil vapor and groundwater pollution, on and off-site, resulting from the release and describes all actions proposed to remediate soil, surface water, air or groundwater polluted by the release in accordance with the regulations adopted pursuant to section 22a-133k.

(4) A soil remedial action report approved, in writing, by a licensed environmental professional has been submitted to the Commissioner of Environmental Protection, or a soil remedial action report has been approved, in writing, by the commissioner. Such soil remedial action report shall describe in detail the extent of soil pollution resulting from the release, all remedial actions taken to abate such soil pollution, and all documentation that demonstrates that such soil pollution has been remediated in accordance with the regulations adopted pursuant to section 22a-133k.

(5) A groundwater remedial action progress report approved, in writing, by a licensed environmental professional has been submitted to the Commissioner of Environmental Protection or a groundwater remedial action progress report has been approved, in writing, by the commissioner. Such report may only be submitted after all construction necessary to implement the approved groundwater remedial actions has been completed and the groundwater remedial actions have been operated and monitored for one year. Such report shall include a detailed description of the remedial actions, the results
of groundwater or any other monitoring conducted, an analysis of whether the remedial actions are effective, and a proposal for any changes in the groundwater remedial actions and monitoring that may be necessary to achieve compliance with the regulations adopted pursuant to section 22a-133k.

(6) An annual groundwater remedial action progress report approved, in writing, by a licensed environmental professional has been submitted to the Commissioner of Environmental Protection or approved, in writing, by the commissioner. Such report shall include a detailed description of the remedial actions, the results of groundwater or any other monitoring conducted for the year covered by the report, an analysis of whether the remedial actions are effective, and a proposal for any changes in the groundwater remedial actions and monitoring that may be necessary to achieve compliance with the regulations adopted pursuant to section 22a-133k. A responsible party pursuant to section 22a-449f, as amended by this act, may submit to the board up to, but not more than, four separate applications or requests for payment or reimbursement in a calendar year regarding costs, expenses or obligations paid or incurred concerning annual groundwater monitoring or compliance with this subdivision.

(7) A final remedial action report approved by a licensed environmental professional has been submitted to the Commissioner of Environmental Protection, or a final remedial action report has been approved, in writing, by the commissioner, that documents that the release has been investigated in accordance with prevailing standards and guidelines and that the soil, surface water, groundwater and air polluted by the release has been remediated in accordance with the regulations adopted pursuant to section 22a-133k.

(8) The Commissioner of Environmental Protection may adopt regulations, in accordance with the provisions of chapter 54, establishing milestones for investigation and remediation of releases or
suspected releases from underground storage tank systems, including milestones that differ from those set forth in this section. Upon the adoption of such regulations, the milestones for investigation and remediation for which payment or reimbursement is available from the [account] program shall be those set forth in the regulations.

(9) This section shall apply to an application or request for reimbursement or payment received by the board on or after October 1, 2005, regardless of when the release or suspected release occurred, whether actions in response to the release or suspected release have already occurred or whether prior applications or requests seeking payment or reimbursement have already been submitted to the board.

Sec. 432. Section 22a-451 of the general statutes is repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

(a) Any person, firm or corporation which directly or indirectly causes pollution and contamination of any land or waters of the state or directly or indirectly causes an emergency through the maintenance, discharge, spillage, uncontrolled loss, seepage or filtration of oil or petroleum or chemical liquids or solid, liquid or gaseous products or hazardous wastes or which owns any hazardous wastes deemed by the commissioner to be a potential threat to human health or the environment and removed by the commissioner shall be liable for all costs and expenses incurred in investigating, containing, removing, monitoring or mitigating such pollution and contamination, emergency or hazardous waste, and legal expenses and court costs incurred in such recovery, provided, if such pollution or contamination or emergency was negligently caused, such person, firm or corporation may, at the discretion of the court, be liable for damages equal to one and one-half times the cost and expenses incurred and provided further if such pollution or contamination or emergency was wilfully caused, such person, firm or corporation may, at the discretion of the court, be liable for damages equal to two times the cost and

expenses incurred. The costs and expenses of investigating, containing, removing, monitoring or mitigating such pollution, contamination, emergency or hazardous waste shall include, but not be limited to, the administrative cost of such action calculated at ten per cent of the actual cost plus the interest on the actual cost at a rate of ten per cent per year thirty days from the date such costs and expenses were sought from the party responsible for such pollution, contamination or emergency. The costs of recovering any legal expenses and court costs shall be calculated at five per cent of the actual costs, plus interest at a rate of ten per cent per year thirty days from the date such costs were sought from the party responsible for such pollution, contamination or emergency. Upon request of the commissioner, the Attorney General shall bring a civil action to recover all such costs and expenses.

(b) If the person, firm or corporation which causes any discharge, spillage, uncontrolled loss, seepage or filtration does not act immediately to contain and remove or mitigate the effects of such discharge, spillage, loss, seepage or filtration to the satisfaction of the commissioner, or if such person, firm or corporation is unknown, and such discharge, spillage, loss, seepage or filtration is not being contained, removed or mitigated by the federal government, a state agency, a municipality or a regional or interstate authority, the commissioner may contract with any person issued a permit pursuant to section 22a-454, as amended by this act, to contain and remove or mitigate the effects of such discharge, spillage, loss, seepage or filtration. The commissioner may contract with any person issued a permit pursuant to said section 22a-454 to remove any hazardous waste that the commissioner deems to be a potential threat to human health or the environment.

(c) Whenever the commissioner incurs contractual obligations pursuant to subsection (b) of this section and the responsible person, firm or corporation or the federal government does not assume such
contractual obligations, the commissioner shall request the Attorney General to bring a civil action pursuant to subsection (a) of this section to recover the costs and expenses of such contractual obligations. If the responsible person, firm or corporation is unknown, the commissioner shall request the federal government to assume such contractual obligations to the extent provided for by the federal Water Pollution Control Act.

[(d) There is established an account to be known as the emergency spill response account, for the purpose of providing money for (1) costs associated with the implementation of section 22a-449 and chapter 441; (2) the containment and removal or mitigation of the discharge, spillage, uncontrolled loss, seepage or filtration of oil or petroleum or chemical liquids or solid, liquid or gaseous products or hazardous wastes including the state share of payments of the costs of remedial action pursuant to the federal Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 USC 9601 et seq.), as amended; (3) provision of potable drinking water pursuant to section 22a-471; (4) completion of the inventory required by section 22a-8a; (5) the removal of hazardous wastes that the commissioner deems to be a potential threat to human health or the environment; (6) (A) the provision of short-term potable drinking water pursuant to subdivision (1) of subsection (a) of section 22a-471 and the preparation of an engineering report pursuant to subdivision (2) of subsection (a) of said section when pollution of the groundwaters by pesticides has occurred or can reasonably be expected to occur; (B) the study required by special act 86-44* and (C) as funds allow, education of the public on the proper use and disposal of pesticides and the prevention of pesticide contamination in drinking water supplies; (7) loans and lines of credit made in accordance with the provisions of section 32-23z; (8) the accomplishment of the purposes of sections 22a-133b to 22a-133g, inclusive, and sections 22a-134 to 22a-134d, inclusive, including staffing, and section 22a-133k; (9) development and implementation by
House Bill No. 6802

the commissioner of a state-wide aquifer protection program pursuant to the provisions of sections 19a-37, 22-6c, 22a-354c, 22a-354e, 22a-354g to 22a-354bb, inclusive, 25-32d, 25-33h, 25-33n and subsection (a) of section 25-84, including, but not limited to, development of state regulations for land uses in aquifer protection areas, technical assistance and educational programs; (10) research on toxic substance contamination, including research by the Environmental Research Institute and the Institute of Water Resources at The University of Connecticut and by the Connecticut Agricultural Experiment Station; (11) the costs of the commissioner in performing or approving level A mapping of aquifer protection areas pursuant to this title; and (12) inventory and evaluation of the farm resource management requirements of farms in aquifer areas by the eight county soil and water conservation districts. The emergency spill response account shall be an account of the Environmental Quality Fund. On July 1, 2001, any balance remaining in said account shall be transferred to the resources of the Environmental Quality Fund. No expenditures shall be made from the amount transferred until on or after July 1, 2001.

(e) The Commissioner of Environmental Protection shall, annually, in accordance with section 4-77, submit to the Secretary of the Office of Policy and Management an operating budget for the emergency spill response account that provides for the operation of programs funded from such account. Such annual operating budget shall include an estimate of revenues from all other sources to meet the estimated expenditures of the account for such fiscal year. Within thirty days prior to the first day of such fiscal year the Secretary of the Office of Policy and Management shall approve said operating budget, with such changes, amendments, additions and deletions as shall be agreed upon prior to that date by the Commissioner of Environmental Protection and the Secretary of the Office of Policy and Management.

Sec. 433. Section 22a-454 of the general statutes is repealed and the
(a) No person shall engage in the business of collecting, storing or treating waste oil or petroleum or chemical liquids or hazardous wastes or of acting as a contractor to contain or remove or otherwise mitigate the effects of discharge, spillage, uncontrolled loss, seepage or filtration of such substance or material or waste nor shall any person, municipality or regional authority dispose of waste oil or petroleum or chemical liquids or waste solid, liquid or gaseous products or hazardous wastes without a permit from the commissioner. Such permit shall be in writing, shall contain such terms and conditions as the commissioner deems necessary and shall be valid for a fixed term not to exceed five years. No permit shall be granted, renewed or transferred unless the commissioner is satisfied that the activities of the permittee will not result in pollution, contamination, emergency or a violation of any regulation adopted under sections 22a-30, 22a-39, 22a-116, 22a-347, 22a-377, 22a-430, 22a-449, as amended by this act, 22a-451, as amended by this act, and 22a-462. The commissioner shall require payment of a fee of five hundred dollars per year for each year covered by a permit to transport hazardous waste and the payment of a fee of fourteen thousand two hundred fifty dollars for a permit to treat waste oil or petroleum or chemical liquids. The commissioner may adopt regulations, in accordance with the provisions of chapter 54, to prescribe the amount of the fees required pursuant to this section. Upon the adoption of such regulations, the fees required by this section shall be as prescribed in such regulations. The commissioner may suspend or revoke a permit for violation of any term or condition of the permit, for conviction of a violation of section 22a-131a or for assessment of a fine under section 22a-131. The commissioner may conduct a program of study and research and demonstration, relating to new and improved methods of waste oil and petroleum or chemical liquids or waste solid, liquid or gaseous products or hazardous wastes disposal. For the purposes of
this section, collecting, storing, or treating of waste oil, petroleum or chemical liquids or hazardous waste shall mean such activities when engaged in by a person whose principal business is the management of such wastes.

(b) No person may dispose of any hazardous waste in a hazardous waste land disposal facility except the following: (1) Metal hydroxide sludge generated from the treatment of electroplating or metal finishing operation waste waters or any other metal hydroxide sludge approved by the commissioner; (2) hazardous waste sludge or residue resulting from an operation determined by the commissioner to be a recycling operation and which has received the required approvals from the commissioner and the Connecticut Siting Council, provided the commissioner determines that such residue cannot reasonably be incinerated or otherwise managed; and (3) hazardous waste spills, fly ash, residue from waste-to-energy facilities or municipal wastewater treatment sludge that has been determined to be hazardous waste but approved for such disposal by the commissioner. As used in this subsection, "hazardous waste" has the same meaning as in section 22a-115 and "hazardous waste land disposal facility" means a facility or part of a facility where hazardous waste is applied onto, placed within or beneath the soil surface and remains after closure of the facility. The prohibition established by this subsection shall not continue after July 1, 1991, unless renewed by the General Assembly. Notwithstanding the provisions of this subsection, any restrictions on the land disposal of hazardous waste imposed by the commissioner pursuant to this subsection shall be as stringent as those imposed under Subtitle C of the Resource Conservation and Recovery Act of 1976 (42 USC 6901 et seq.), as amended.

(c) No person shall engage in the business of the transfer of hazardous waste from one vehicle to another or from one mode of transportation to another without a permit from the commissioner.
(d) The commissioner shall require the payment of the following fees for permits under this section: (1) Forty-five thousand two hundred fifty dollars to operate a hazardous waste landfill or incinerator; (2) twenty-one thousand two hundred fifty dollars to store or treat hazardous waste; (3) ten thousand [five hundred] seven hundred fifty dollars to engage in the transfer of hazardous waste as described in subsection (c) of this section if the hazardous waste is transferred from its original container to another container; and (4) [three thousand seven hundred fifty] four thousand dollars to engage in the transfer of hazardous waste as described in subsection (c) of this section if the hazardous waste remains in the original container. The commissioner shall also charge a fee of [one] two hundred dollars for each hazardous waste treatment, disposal or storage facility which submits an application for a status change to a generator. The commissioner shall charge a fee of [fifty] one hundred dollars for each hazardous waste large quantity generator which submits an application for status change to a small generator.

(e) (1) The commissioner may issue a general permit for a category of activities which require a permit under subsection (a) of this section or license under subsection (b) of section 22a-449, as amended by this act, except for an activity for which an individual permit has already been obtained provided the issuance of the general permit is not inconsistent with the requirements of the federal Resource Conservation and Recovery Act. Any person or municipality conducting an activity for which a general permit has been issued shall not be required to obtain an individual permit under subsection (a) of this section, except as provided in subdivision (3) of this subsection. The general permit may regulate a category of activities which: (A) Involve the same or substantially similar types of operations; (B) involve the collection, storage, treatment or disposal of the same types
of substances; (C) require the same operating conditions or standards, and (D) require the same or similar monitoring, and which in the opinion of the commissioner are more appropriately controlled under a general permit than under an individual permit. The general permit may require any person or municipality proposing to conduct any activity under the general permit to register such activity with the commissioner before it is covered by the general permit. Registration shall be on a form prescribed by the commissioner.

(2) Notwithstanding any provisions of this section, or any regulations adopted thereunder, or of chapter 54, the following procedures shall apply to the issuance, renewal, modification, revocation or suspension of a general permit: (A) A general permit shall be issued for a term specified by the permit and shall clearly define the activity covered thereby and may include such conditions and requirements as the commissioner deems appropriate, including but not limited to operation and maintenance requirements, management practices, and reporting requirements; (B) the commissioner shall publish notice of intent to issue a general permit in a newspaper having a substantial circulation in the affected area; (C) there shall be a comment period of thirty days following publication of such notice during which interested persons may submit written comments to the commissioner; (D) the commissioner shall publish notice of the issuance or decision not to issue a general permit in a newspaper having substantial circulation in the affected area. The commissioner may revoke, suspend or modify a general permit in accordance with the notice and comment procedures for issuance of a general permit specified in this subsection. Any person may request that the commissioner issue, modify, suspend or revoke a general permit in accordance with this subsection; and (E) summary suspension may be ordered in accordance with subsection (c) of section 4-182.
(3) Subsequent to the issuance of a general permit, the commissioner may require any person or municipality whose activity is or may be covered by the general permit to apply for and obtain an individual permit pursuant to subsection (a) of this section if he determines that an individual permit would better protect the land, air and waters of the state from pollution. The commissioner may require an individual permit under this subdivision in cases including, but not limited to the following: (A) When the owner or operator is not in compliance with the conditions of the general permit; (B) when a change has occurred in the availability of demonstrated technology or practices for the control or abatement of pollution applicable to the activity; (C) when circumstances have changed since the time of the issuance of the general permit so that the activity is no longer appropriately controlled under the general permit, or either a temporary or permanent reduction or elimination of the authorized activity is necessary; or (D) when a relevant change has occurred in the applicability of the federal Resource Conservation and Recovery Act. In making the determination to require an individual permit, the commissioner may consider the location, character, and size of the activity, and any other relevant factors. The commissioner may require an individual permit under this subdivision only if the affected person or municipality covered by the general permit has been notified in writing that a permit application is required. This notice shall include a brief statement of the reasons for this decision, an application form, a statement setting a time for the person or municipality to file the application, and a statement that on the effective date of the individual permit the general permit as it applies to the individual permittee shall automatically terminate. The commissioner may grant an extension of time upon the request of the applicant. If the affected person or municipality does not submit a complete application for an individual permit within the time frame set forth in the commissioner's notice or as extended by the commissioner in writing, then the general permit as it applies to the affected person or municipality shall automatically
terminate. The applicant shall use his best efforts to obtain the individual permit. Any interested person or municipality may petition the commissioner to take action under this subdivision.

(4) The commissioner may adopt regulations, in accordance with the provisions of chapter 54 to carry out the purposes of this subsection.

Sec. 434. Section 22a-454a of the general statutes is repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

House Bill No. 6802

(b) Each hazardous waste landfill, incinerator, storage, treatment or land treatment facility, as defined in regulations adopted by the Commissioner of Environmental Protection in regulations adopted pursuant to section 22a-449, as amended by this act, shall pay an annual fee of one thousand [five hundred] seven hundred fifty dollars.

Sec. 437. Section 23-61b of the general statutes is repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

Sec. 475. Section 4-89 of the general statutes is repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

(a) No officer, department, board, commission, institution or other agency of the state shall, after the close of any fiscal year, incur, or vote or order or approve the incurring of, any obligation or expenditure under any appropriation made by the General Assembly for any fiscal year that had expired at the time the obligation for such expenditure was incurred. The Comptroller is authorized to draw warrants or process interdepartmental transactions against the available appropriations made for the current fiscal year for the payment of expenditures incurred during the prior fiscal year for which appropriations were made or in fulfillment of contracts properly made during such prior year, and the Treasurer is authorized to pay such warrants or record such interdepartmental transactions. The balances of certain appropriations which otherwise would lapse at the close of any fiscal year and for which no appropriation is made in the following year shall be extended into the succeeding fiscal year for the period of one month to permit liquidation of obligations of the prior fiscal year.

(b) Except as provided in this section, all unexpended balances of appropriations made by the General Assembly in the state budget act shall lapse at the end of the period for which they have been made and shall revert to the unappropriated surplus of the fund from which such appropriation or appropriations were made, except that any appropriation for the improvement of or maintenance work by contract on public roads, for the purchase of land or the erection of buildings or new construction or for specific projects for capital improvements and repairs, provided in the case of such specific projects allotments shall have been made by the Governor for design and construction, shall continue to be available until the attainment of the object or the completion of the work for which such appropriation
House Bill No. 6802

was made, but in no case for more than six years unless renewed by act of the General Assembly.

(c) All unexpended balances of special appropriations made by the General Assembly for special programs, projects or studies shall lapse at the end of the period for which they have been made, except that if satisfied that the work of any such program, project or study is not completed and will continue during the following fiscal year, the Secretary of the Office of Policy and Management shall order any unexpended balance remaining in the special appropriation to be continued to the ensuing fiscal year.

(d) Any appropriation made by the General Assembly for no specific period, or any unexpended balance thereof, shall lapse on June thirtieth in the fourth year after such appropriation was made, provided when the purpose for which any such appropriation was made has been accomplished or there is no further need for funds thereunder, the unexpended balance thereof, upon the written consent of the head of the department, board, commission, institution or other agency to which such appropriation was made, shall lapse and shall revert to the unappropriated surplus of the fund from which such appropriation was made.

(e) The provisions of this section shall not apply to appropriations for Department of Transportation equipment, the highway and planning research program administered by the Department of Transportation, Department of Environmental Protection equipment or the purchase of public transportation equipment, the minor capital improvement account in the Department of Public Works, the litigation/settlement account in the Office of Policy and Management, library or educational equipment for the constituent units of the state system of higher education, or library or educational materials for the State Library, or the state-wide tourism marketing account of the Commission on Culture and Tourism. Such appropriations shall not

lapse until the end of the fiscal year succeeding the fiscal year of the appropriation, provided an obligation to spend such funds has been incurred in the next preceding fiscal year, except that for the purposes of library or educational equipment or materials, such funds shall not exceed twenty-five per cent of the amount of the appropriation for such purposes.

(f) The provisions of this section shall not apply to appropriations to the Department of Higher Education for student financial assistance for the scholarship program established under section 10a-169, for the high technology graduate scholarship program established under section 10a-170a, for Connecticut higher education centers of excellence established under section 10a-25h, for the minority advancement program established under subsection (b) of section 10a-11, for the high technology doctoral fellowship program established under section 10a-25n, or to the operating funds of the constituent units of the state system of higher education established pursuant to sections 10a-105, 10a-99 and 10a-77. Such appropriations shall not lapse until the end of the fiscal year succeeding the fiscal year of the appropriation except that centers of excellence appropriations deposited by the board of governors in the Endowed Chair Investment Fund, established under section 10a-20a, shall not lapse but shall be held permanently in the Endowed Chair Investment Fund and any moneys remaining in higher education operating funds of the constituent units of the state system of higher education shall not lapse but shall be held permanently in such funds. On or before September first, annually, the Board of Governors of Higher Education shall submit a report to the joint standing committee of the General Assembly having cognizance of matters relating to appropriations and the budgets of state agencies, through the Office of Fiscal Analysis, concerning the amount of each such appropriation carried over from the preceding fiscal year.
House Bill No. 6802

Such regulations may include provisions for examinations, issuance of certificates of personal watercraft operation and establishment of a reasonable fee for such course and examination and for the issuance of a certificate and duplicate certificate. [Any fee collected pursuant to regulations adopted under this section shall be deposited in the boating account established pursuant to section 15-155.]

Sec. 478. Subsection (b) of section 14-21i of the general statutes is repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

The fee shall be for such number plates with letters and numbers selected by the Commissioner of Motor Vehicles. The Commissioner of Motor Vehicles may establish a higher fee for: (1) Such number plates which contain letters in place of numbers as authorized by section 14-49, in addition to the fee or fees prescribed for plates issued under said section; and (2) such number plates which are low number plates, in accordance with section 14-160, in addition to the fee or fees prescribed for plates issued under said section. Sec. 479. Subsection (b) of section 15-145 of the general statutes, as amended by section 2 of public act 09-105, is repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

(b) The commissioner may adopt regulations, in accordance with

[Such fees shall be deposited in the boating account of the Conservation Fund.] Such application shall contain an affidavit stating that (A) such marine dealer is a person engaged in the business of manufacturing, selling or repairing new or used vessels and that such person has an established place of business for the sale, trade, display or repair of such vessels, unless specifically exempted in this subsection from the requirement to have an established place of business, (B) such marine engine manufacturer is a person engaged in the business of manufacturing, selling or repairing marine engines and that such person has an established place of business for the sale, trade, display or repair of such engines, or (C) such marine surveyor is a person engaged in the inspection, surveying or examination of vessels and meets the definition of a "marine surveyor", as defined in section 15-141, as amended by [this act] section 1 of public act 09-105. Each certificate shall be renewed on the first day of May of the year following the date of issue and shall expire on the last day of April of
the year following such renewal, unless sooner terminated or surrendered. At least thirty days prior to the expiration date of each certificate, the Commissioner of Environmental Protection shall notify each marine dealer, marine engine manufacturer and marine surveyor of such expiration. Within ninety days before its expiration, each marine dealer's, marine engine manufacturer's or marine surveyor's certificate may be renewed upon application and upon payment of the fee prescribed by the commissioner pursuant to this subsection. Sec. 480. Section 22a-449i of the general statutes is repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

Nothing in sections 22a-449a to 22a-449h, inclusive, [and no determination of fact or law by the Underground Storage Tank Petroleum Clean-Up Account Review Board pursuant thereto,] shall affect the authority of the Commissioner of Environmental Protection or the Commissioner of Public Health under any other statute or regulation, including, but not limited to, the authority to issue any order to prevent or abate pollution or potential sources of pollution or to provide potable drinking water.

Sec. 481. Subsections (a) and (b) of section 22a-471 of the general statutes are repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

(a) (1) If the commissioner determines that pollution of the groundwaters has occurred or can reasonably be expected to occur and the Commissioner of Public Health determines that the extent of
House Bill No. 6802

pollution creates or can reasonably be expected to create an unacceptable risk of injury to the health or safety of persons using such groundwaters as a public or private source of water for drinking or other personal or domestic uses, the Commissioner of Environmental Protection shall, [as funds from the emergency spill response account established by section 22a-451 allow] within available appropriations, arrange for the short-term provision of potable drinking water to those residential buildings and elementary and secondary schools affected by such pollution until either he issues an order pursuant to this section requiring the provision of such short-term supply and the recipient complies with such order or a long-term supply of potable drinking water has been provided, whichever is earlier. In determining if pollution creates an unacceptable risk of injury, the Commissioner of Public Health shall balance all relevant and substantive facts and inferences and shall not be limited to a consideration of available statistical analysis but shall consider all of the evidence presented and any factor related to human health risks. The commissioner may issue an order to the person or municipality responsible for such pollution requiring that potable drinking water be provided to all persons affected by such pollution. If the commissioner finds that more than one person or municipality is responsible for such pollution, he shall attempt to apportion responsibility if he determines that apportionment is appropriate. If he does not apportion responsibility, all persons and municipalities responsible for the pollution of the groundwaters shall be jointly and severally responsible for the providing of potable drinking water to persons affected by such pollution. If the commissioner determines that the state or an agency or department of the state is responsible in whole or in part for the pollution of the groundwaters, such agency or department shall prepare or arrange for the preparation of an engineering report and shall provide or arrange for the provision of a long-term potable drinking water supply. If the commissioner is unable to determine the person or municipality responsible or if he determines that the
House Bill No. 6802

responsible persons have no assets other than land, buildings, business machinery or livestock and are unable to secure a loan at a reasonable rate of interest to provide potable drinking water, he may prepare or arrange for the preparation of an engineering report and provide or arrange for the provision of a long-term potable drinking water supply or he may issue an order to the municipality wherein groundwaters unusable for potable drinking water are located requiring that short-term provision of potable drinking water be made to those existing residential buildings and elementary and secondary schools affected by such pollution and that long-term provision of potable drinking water be made to all persons affected by such pollution. For purposes of this section, "residential building" means any house, apartment, trailer, mobile manufactured home or other structure occupied by individuals as a dwelling, except a non-owner-occupied hotel or motel or a correctional institution.

(2) Any order issued pursuant to this section may require the provision of potable drinking water in such quantities as the commissioner determines are necessary for drinking and other personal and domestic uses and may require the maintenance and monitoring of potable water supply facilities for any period which the commissioner determines is necessary. In making such determinations, the commissioner shall consider the short-term and long-term needs for potable drinking water and the health and safety of those persons whose water supply is unusable. Any order may require the submission of an engineering report which shall be subject to the approval of the commissioner and the Commissioner of Public Health and include, but not be limited to, a description in detail of the problem, area and population affected by pollution of the groundwaters; the expected duration of and extent of the pollution; alternate solutions including relative cost of construction or installation, operation and maintenance; design criteria on all alternate solutions; and any other information which the commissioner deems
necessary. Upon review of such report, the commissioner and the Commissioner of Public Health shall consider the nature of the pollution, the expected duration and extent of the pollution, the health and safety of the persons affected, the initial and ongoing cost-effectiveness and reliability of each alternative and any other factors which they deem relevant, and shall approve a system or method to provide potable drinking water pursuant to the order. Each order shall include a time schedule for the accomplishment of the steps leading to the provision of potable drinking water. Notwithstanding the fact that a responsible party has been or may be identified or a request for a hearing on or a pending appeal from an order issued pursuant to this section, when pollution of the groundwaters has occurred or may reasonably be expected to occur, the commissioner may prepare or arrange for the preparation of an engineering report as described in this subdivision and may provide or arrange for the provision of a long-term potable drinking water supply. In any case where the state or an agency or department of the state is responsible in whole or in part for the pollution of the groundwaters, such agency or department shall prepare or arrange for the preparation of an engineering report and shall provide or arrange for the provision of a long-term potable drinking water supply, and if the state is not the sole responsible party, the commissioner shall seek reimbursement under subdivision (4) of subsection (b) of this section for the costs of such report and for the provision of potable water. The cost of the report and of the provision of a long-term potable drinking water supply, as funds allow, shall be paid from the [emergency spill response account pursuant to the provisions of subdivision (6) of subsection (d) of section 22a-451 or from the] proceeds of any bonds authorized for the provision of potable drinking water.

(3) The provisions of this section shall not affect the rights of any municipality to institute suit to recover all damages, expenses and costs incurred by the municipality from any responsible party,
House Bill No. 6802

including, but not limited to, the costs specified in subparagraph (B)(i) and (ii) of subdivision (4) of subsection (b) of this section and, in the case of any municipality which is not responsible for the pollution of the groundwaters, the additional amounts specified in subparagraph (B)(iii) and (iv) of subdivision (4) of subsection (b) of this section.

(4) No provision of this section shall limit the liability of any person who or municipality which renders the groundwaters unusable for potable drinking water from a suit for damages by a person who or municipality which relied on said groundwaters for potable drinking water prior to the determination by the commissioner that the groundwaters are polluted.

(5) The commissioner may issue any order pursuant to this section if the pollution of the groundwaters occurred before or after July 1, 1982.

(6) The commissioner may at any time require further action by any person to whom or municipality to which an order is issued pursuant to this section if he determines that such action is necessary to protect the health and safety of those persons whose water supply was rendered unusable.

(b) (1) (A) Any municipality not responsible for the pollution of the groundwaters which is ordered to provide potable drinking water in accordance with subsection (a) of this section may apply to the commissioner for a grant as provided by this subsection. Except as provided in subparagraph (C) of subdivision (1) of this subsection and in subdivision (2) of this subsection, the commissioner shall make grants for the short-term provision of potable drinking water and the construction or installation of individual wells or individual water treatment systems, including, but not limited to, carbon absorption filters and shall make grants for other capital improvements for the long-term provision of potable drinking water from any emergency spill response account established by section 22a-451 or from [the emergency spill response account established by section 22a-451 or from] any
bond authorization established for that purpose.

(B) The amount distributed to a municipality shall, as funds allow, equal one hundred per cent of the cost of short-term provision of potable drinking water, one hundred per cent of the cost of the engineering report required by this section, one hundred per cent of the cost of capital improvements for the most cost-effective long-term method of providing potable drinking water as determined by the commissioner and the Commissioner of Public Health upon consideration of such engineering report, and one hundred per cent of the cost during the first five years of installation of monitoring and maintaining individual water treatment systems and monitoring drinking water wells located in an area where the commissioner determines that pollution of the groundwater is reasonably likely to occur. No state funds shall be distributed to a municipality for the cost of operating or maintaining any potable water supply facilities other than as specified in this subsection.

(C) Notwithstanding any provision of this subsection to the contrary, the commissioner may advance to a municipality, from the account established by section 22a-451 or from the proceeds of any bonds authorized for the provision of potable drinking water, any percentage of the cost of short-term and long-term provision of potable drinking water which he deems necessary.

(2) (A) If the commissioner is unable to determine the person or municipality responsible for rendering the groundwaters unusable for potable drinking water or if he determines that the responsible persons have no assets other than land, buildings, business machinery or livestock and are unable to secure a loan at a reasonable rate of interest to provide potable drinking water, a water company which has less than ten thousand customers and which owns, maintains, operates, manages, controls or employs a water supply well which is rendered unusable for potable drinking water, may apply to the commissioner
for a grant from funds established pursuant to section 22a-451 or from the proceeds of any bonds authorized for the provision of potable drinking water. If, upon review of the engineering report required by this subsection to be submitted with an application for such a grant, the commissioner determines that a grant to a water company from \[\text{the emergency spill response account established by section 22a-451}\] available appropriations or from the proceeds of any bonds authorized for the provision of potable drinking water is appropriate, he may make such a grant in accordance with regulations adopted by him pursuant to subsection (e) of this section.

(B) The total amount distributed to a water company pursuant to this subsection shall, as funds allow, equal fifty per cent of the cost of the engineering report required by this subsection and fifty per cent of the cost of the most cost-effective long-term method of rendering the water supply in question usable for potable drinking water, as determined by the commissioner and the Commissioner of Public Health upon consideration of the required engineering report.

(C) For purposes of this section, "water company" and "customer" shall have the same meaning as specified in section 25-32a.

(D) Any water company applying for a grant pursuant to this section shall prepare or have prepared an engineering report which shall be subject to the approval of the commissioner and the Commissioner of Public Health and include, but not be limited to, a description in detail of the problem, area and population affected by pollution of the groundwaters; alternate solutions including relative cost of construction or installation, operation and maintenance; design criteria on all alternate solutions and any other information the commissioner deems necessary.

(3) (A) If a municipality or water company receives funding from a private source, a federal grant or another state grant for any cost for
which a grant may be awarded pursuant to this section, the grant under this section shall equal the specified percentage of the costs specified in this subsection minus the amount of the other funding.

(B) If a municipality or water company receives a grant under this section and is compensated by a person who or municipality which is responsible for rendering the groundwaters unusable for potable drinking water, the municipality or water company shall reimburse the account from which the funds were made available for the grant as follows: If the compensation from the responsible party equals or exceeds the costs toward which the grant was to be applied, the municipality or water company shall reimburse the total amount of the grant; if the compensation is less than the cost toward which the grant was to be applied, the municipality or water company shall reimburse a percentage of the compensation equal to the percentage of such costs paid by the grant.

(4) (A) Notwithstanding any request for a hearing or a pending appeal therefrom, if a person or municipality responsible for pollution of the groundwaters fails to comply with an order of the commissioner issued pursuant to this section, the municipality wherein such pollution is located may, after giving written notice of its intent to the commissioner and the responsible person or municipality, undertake the actions required by the order and seek reimbursement for the cost of such actions from the responsible person or municipality. If at any time after receipt of such a notice, the responsible party intends to comply with a step of the order which the municipality has not yet completed, the responsible party may do so with the written approval of the commissioner and municipality, provided the actions which the responsible party takes are consistent with those taken by the municipality.

(B) The commissioner may order any person or municipality responsible for pollution of the groundwaters to reimburse the state, a
water company, and any municipality which is not responsible for pollution but received an order pursuant to this section or which did not receive such an order but voluntarily provided potable drinking water, for (i) the expenses each incurred in providing potable drinking water to any person affected by such pollution, provided the required reimbursement for such expenses shall not exceed the actual cost of short-term provision of potable drinking water and an amount equal to the reasonable cost of planning and implementing the most cost-effective long-term method of providing potable drinking water as determined by the commissioner and the Commissioner of Public Health; (ii) costs for recovering such reimbursement; (iii) interest on the expenses specified in (i) at a rate of ten per cent a year from the date such expenses were paid; and (iv) reasonable attorney's fees. The commissioner may request the Attorney General to bring a civil action to recover any costs or expenses incurred by the commissioner pursuant to this subsection provided no such action may be brought later than ten years after the date of discovery of the pollution of public or private sources of water for drinking or other personal or domestic use.

(C) If a municipality fails to recover all expenses specified in subparagraph (B)(i) of subdivision (4) of this subsection from the responsible party, the municipality may apply to the commissioner for a grant in accordance with this subsection, provided the total amount of funds received from the commissioner and the responsible party shall not exceed the amounts specified in subparagraph (B) of subdivision (1) of subsection (b) of this section.

(5) For purposes of this section except subdivision (3) of subsection (a) and subparagraph (B)(ii) of subdivision (4) of this subsection, "cost" includes only those costs which the commissioner determines are necessary and reasonable, including, but not limited to, the cost of plans and specifications, construction or installation and supervision
(6) If any grant application is pending on June 7, 1994, and is approved by the commissioner, the percentage of costs to be paid by the grant shall be determined in accordance with this section. Any order pending on May 31, 1985, shall be construed in accordance with this section.

(7) Any person who or municipality which provides potable drinking water pursuant to this section may, with the approval of the commissioner, construct or install facilities beyond the areas included in the order or facilities which are more costly than those which are determined to be most cost-effective, provided any request for a grant or reimbursement shall be limited to the amounts specified in this section.

Sec. 482. Subsection (b) of section 14-21s of the general statutes is repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

(b) A fee of fifty dollars shall be charged for wildlife conservation commemorative number plates, in addition to the regular fee or fees prescribed for the registration of a motor vehicle. Fifteen dollars of such fee shall be deposited in an account controlled by the Department of Motor Vehicles to be used for the cost of producing, issuing, renewing and replacing such number plates. [and thirty-five dollars of such fee shall be deposited in an account controlled by the Secretary of the Office of Policy and Management for purposes of section 14-21t.] Such number plates shall have letters and numbers selected by the Commissioner of Motor Vehicles. The commissioner may establish a higher fee for: (1) Number plates that contain the numbers and letters from a previously issued number plate; (2) number plates that contain letters in place of numbers as authorized by section 14-49, in addition to the fee or fees prescribed for registration under said section; and (3)
number plates that are low number plates issued in accordance with section 14-160, in addition to the fee or fees prescribed for registration under said section.

Sec. 483. Section 25-68l of the general statutes is repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

(a) On and after July 1, 2005, within available appropriations, the Commissioner of Environmental Protection shall make grants to municipalities under section 25-68k, from funds in the hazard mitigation and floodplain management account, established under section 22a-27q.

(b) If the commissioner finds that any grant awarded pursuant to this section is being used for other purposes or to supplant a previous source of funds, the commissioner may require repayment.

Sec. 484. Section 23-23 of the general statutes is repealed and the following is substituted in lieu thereof (Effective October 1, 2009):

(a) The Commissioner of Environmental Protection may, in cooperation with federal agencies, or by his own initiative, raise or purchase, with moneys appropriated from the General Fund, planting seed or seedling stock for reforestation, farm windbreaks, wildlife management plantings or soil conservation or other conservation purposes within the state and may sell such seedlings to landowners in this state, state agencies, municipalities or conservation organizations at prices which will cover the approximate cost of the seedlings to the state.

(b) The commissioner may provide tree seedlings at no cost to any elementary or secondary school or conservation commission for the celebration of Arbor Day in accordance with any proclamation issued pursuant to subdivision (3) of subsection (a) of section 10-29a.
(c) The commissioner may, when the space available in Connecticut state nurseries for the raising of seedling stock is in excess of that needed for raising such stock for use by Connecticut landowners, state agencies, municipalities or conservation organizations, enter into an agreement with any other state or the United States Forest Service to raise seedling stock in Connecticut state nurseries for use by such states or service for reforestation, farm windbreaks, wildlife management plantings or soil conservation or other conservation purposes. When the needs of landowners in this state have been met, the commissioner may: (1) Sell seedling stock to landowners, state agencies, municipalities or conservation organizations outside this state provided the state forester or the equivalent official of the state where the seedlings are to be planted has granted permission to do so; or (2) dispose of any excess of planting seed by sale to, or exchange with, any other state forestry organization or the United States Forest Service. Notwithstanding any other provision of the general statutes, the commissioner may sell such seeds and seedlings at prices or on such terms that he deems appropriate and such prices or terms may exceed the cost of the seeds or seedlings to the state of Connecticut.

(d) The commissioner shall require that each purchaser of seedlings, except for any nonprofit conservation organization, sign an agreement stating that the seedlings will be used for the aforementioned purposes and will not be resold at any time with roots attached and he may take such other measures as he deems necessary to assure himself that seedlings so purchased shall not be used for shade trees, landscaping or ornamental plantings. Nonprofit conservation organizations may resell or otherwise distribute seedling stock purchased from the commissioner provided such resale or distribution is in furtherance of the purposes of this section. The commissioner shall require that each nonprofit conservation organization purchasing seedlings sign an agreement that the seedlings will be resold, distributed or otherwise utilized in furtherance of such purposes and he may take such other
measures as he deems necessary to assure that seedlings so purchased shall not be used for shade trees, landscaping or ornamental plantings.

[(e) All receipts from the sale of such seeds, seedling stock, all reimbursements from state agencies and all reimbursements for subsidies received from the federal government shall be deposited in the Conservation Fund established by section 22a-27h.]
