Subject: Support for Raised Bill 6666 Section 7

Mr. Friis-

I am writing to express my strong support for Bill 6666 Section 7. As the coordinator of the only nationally approved training program in Behavior Analysis in the State of Connecticut, and a practicing Behavior Analyst, I can speak to the significance of this legislation. This bill, requiring the utilization of BCBA's by school districts when a child with ASD's IEP identifies ABA services, is an important step in ensuring appropriate and effective education for individuals with ASD.

Thank you for your consideration.

Best,
Dr. Fitzgerald
