

March 9,2009

I would like to add my name to the list of persons in support of House Bill Number 6555, AN ACT CONCERNING THE HUMANE TREATMENT OF ELEPHANTS.

The use of bull hooks, electric prods, chains and ropes need to be stopped, as "wild" animals, such as elephants, do not belong in captivity. Elephants, as well as all other "wild" animals, belong in the "wild"!

Sincerely yours,

Fred L. Service, Jr.
