As a small business owner I am not able to take the time off to come to Hartford. I ask that you consider my concern and the concerns of all small business owners that government not tie our hands even more in these trying times.

We are being asked to compensate for the transgressions of many others who have made bad decisions in the past few years. The federal government is heaping enough on us. Please stop this at the local and state level !

I apologize for the poor typing but I am sitting in an unheated office to save on the fuel bills. Maybe the state can try some of the bitter medicine we are using in our businesses at their level!
