On behalf of the Connecticut Chapter of the American Institute of Architects, we cannot support the language as written in SB 1002, An Act Concerning the Department of Consumer Protection, but are most willing to work with the Connecticut Chapter of the American Society of Landscape Architects to resolve the challenges we have.

We fully understand the desire on the part of the Landscape Architects to 'clean up' the current statutory language effecting joint practice for Landscape Architects. Unfortunately AIA Connecticut has some challenges with the language as written but would look forward to working with the Landscape Architects to resolve these challenges. We have a very positive and collegial working relationship with our colleagues, the Landscape Architects and feel sure we can find common ground.

Thank you.

Very truly yours,
