Higher Education and Employment Advancement Committee Public Hearing
February 10, 2009

Co-Chairs, Ranking Members and Members of the Committee, thank you for allowing me to submit written testimony today on H.B. 5227 under consideration by the Committee.

HB 5227, An Act Allowing Towns To Create Scholarship Funds Through Municipal Bonding

The University supports this bill which provides towns with a mechanism to provide scholarships to their residents to attend UConn, CSU and the Community Colleges. This legislation would offer students an additional way to finance their education and attend a Connecticut public institution of higher education.
