

Testimony
March 24, 2009
To the Members of the Judiciary Committee

349

I would like to see our tax dollars focus on violent criminals, not casual marijuana users. Drugs are a serious issue, and we are all concerned about our kids. No one has ever overdosed on marijuana. The same cannot be said of alcohol, a legal substance. Let's focus on more serious threats to our kids.

Furthermore, our state will save money by decriminalizing marijuana, which will allow for more resources to be focused on serious crime, and/or mitigating the budget!

Thank you for your time and consideration,
