

Testimony:

SB725 – As a property manager for 20- plus year, 8 of which were in the State of Florida, I oppose Term Limits for Board Members. I do not feel that this is a task that the State Legislature needs to take on. The Declaration of Condominium has outline the democratic forum by which Board member(s) may be elected as Directors as well as removed from Directorship. Should a unit owner and or a community have a problem with a particular Board member(s) they have the ability to remove those persons and replace them with the system that is in place. There is no good reason to take this to a higher power.
