REP. FLEISCHMANN, 18th Dist.

To: Subst. Senate Bill No. 1014 File No. 648 Cal. No. 430

"AN ACT CONCERNING LONGITUDINAL STUDIES OF STUDENT ACHIEVEMENT."

1 Strike everything after the enacting clause and substitute the following in lieu thereof:

2 "Section 1. Section 10-10a of the general statutes is repealed and the following is substituted in lieu thereof (Effective July 1, 2009):

3 (a) The Department of Education shall develop and implement a state-wide public school information system. The system shall be designed for the purpose of establishing a standardized electronic data collection and reporting protocol that will facilitate compliance with state and federal reporting requirements, improve school-to-school and district-to-district information exchanges, and maintain the confidentiality of individual student and staff data. The initial design shall focus on student information, provided the system shall be created to allow for future compatibility with financial, facility and staff data. The system shall provide for the tracking of the performance
of individual students on each of the state-wide mastery examinations under section 10-14n in order to allow the department to compare the progress of the same cohort of students who take each examination and to better analyze school performance. The department shall assign a unique student identifier to each student prior to tracking the performance of a student in the public school information system.

(b) The system database of student information shall not be considered a public record for the purposes of section 1-210. Nothing in this section shall be construed to limit the ability of a full-time permanent employee of a nonprofit organization that is exempt from taxation under Section 501(c)(3) of the Internal Revenue Code of 1986, or any subsequent corresponding internal revenue code of the United States, as from time to time amended, and that is organized and operated for educational purposes, to obtain information in accordance with the provisions of subsection (e) of this section.

(c) [The department shall initiate a pilot system project not later than the 2002-2003 school year with full implementation in the school year following successful implementation of the pilot.] All school districts shall participate in the system, provided the department provides for technical assistance and training of school staff in the use of the system.

(d) Local and regional boards of education and preschool programs which receive state or federal funding shall participate, in a manner prescribed by the Commissioner of Education, in the state-wide public school information system described in subsection (a) of this section. Participation for purposes of this subsection shall include, but not be limited to, reporting on (1) student experiences in preschool by program type and by numbers of months in each such program, and (2) the readiness of students entering kindergarten and student progress in kindergarten. Such reporting shall be done by October 1, 2007, and annually thereafter.

(e) On and after August 1, 2009, upon receipt of a written request to
access data maintained under this section by a full-time permanent
employee of a nonprofit organization that is exempt from taxation
under Section 501(c)(3) of the Internal Revenue Code of 1986, or any
subsequent corresponding internal revenue code of the United States,
as from time to time amended, and that is organized and operated for
educational purposes, the Department of Education shall provide such
data to such requesting party not later than sixty days after such
request, provided such requesting party shall be responsible for the
reasonable cost of such request. The Department of Information
Technology shall monitor the calculation of such fees charged for
access to or copies of such records to ensure that such fees are
reasonable and consistent with those charged by other state agencies.
The Department of Education shall respond to written requests under
this section in the order in which they are received."
