

CAUSA Points

Every CAUSA agency has already taken big cuts. This new proposal is the nail in the coffin.

Enough is enough--no more cuts to the most vulnerable citizens of our state.

We are in the middle of the budget cycle--yet, the Governor wants to change the rules after the game is already in progress. This is wrong.

We watch very carefully over every dollar that comes to us through the Hispanic Human Resources Development Program. Every penny.

I can tell you we've already cut to the bone. We've already adapted to tough times--there is nothing more to cut.

Please do not damage the social safety net any further. Please keep the HHRDP line item where it is right now--please oppose a 25% cut.
