February 7, 2009

To All Legislators,

This letter comes to support the African American Affairs Commission and its important work. Through the years it has brought programs that present the special qualities of African Americans to all. There has been a greater respect of African Americans and their history, culture and contributions. Individuals and organizations have been recognized that share their talents with the community. A greater understanding of other ethnicities has been noted. This commission must continue to be the bridge of understanding to individuals and organizations.

Sincerely,

Barbara M. Alleyne
President
