Dear Legislators,

My name is Christopher M. Yarmolovich, and I am a participant with my family of the Children's Trust Fund Nurturing Families Network Home Visiting Program. I think that The Children's Trust Fund Nurturing Families Network should stay open. They have changed my son's life around. He is more happy. He needs an education and love to grow. As a father we need a place to go to be a better father. I have learned to love my son more, be more patient and have fun. I learned how to stay strong when times get hard. Life is not always easy. Being a father is easy but actually being a dad is what I strive for. That is what the Nurturing Families Home Visiting has taught me to be. The staff struggle thru the good and hard times, but they never shed a tear to show it. I give them a lot of credit. Come on lets give our children something to look back at and it's their Education and its worth liven for. Let's forgive and forget the past and make a better future. This program has given me hope of being a better dad. This program has so much to offer why take it away?

Thank You,

Christopher M. Yarmolovich
