I am not a former student of ECA, nor faculty, but as an artist, I can truly see the importance of ECA for many talented art students and the positive effects ECA has on the community. Shutting down ECA would be ridiculous, it offers so much direction for the young artists of Connecticut. A teaching certification for someone who has attained well above that academically is just as ridiculous. These artists are teachers at ECA for the love of teaching art. Please do whatever it takes to keep ECA open.

Sincerely,
Jo-anna Horn
