Dear Education Committee Members:

I am a registered voter in the state of Connecticut and I wholeheartedly support the passage of Bill # 6666, Section 7 that would mandate that school districts employ certified behavior analysts when a child with autism's educational plan calls for such services. I have an employee with a child on the spectrum and I how important this is first hand.

I hope you will vote in support of this very important legislation.

Sincerely yours,

Keith Czarnecki
