

To the Education Committee

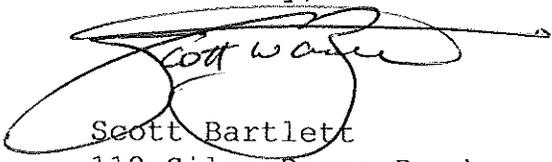

March 12, 2009

Regarding Raised Bill # 6666, section 7, an bill requiring school districts to work with certified behavior analysts for children with autism who have these services indentified as necessary on their IEP

To the Education Committee

I am in support of Bill # 6666, section 7. Children with autism should not have less than minimally qualified personnel. You can't even operate a back hoe in the state of Connecticut without a license, how can we let the most challenged children work with those without a credential. Please pass this bill.

Yours truly,

Scott Bartlett
