Subject: HB6666, Section 5

ACES-ECA was the heart beat of my youth during high school. It was why I woke up in the morning, why I loved the ages of 13-18, It's why I got into the university with scholarship that I did. This nontraditional school provides insight into a community and world MUCH larger than what I would have been provided with less skilled teachers, or in a traditional school. I am eternally grateful for everything that ECA provided me, and I would lose a piece of my history if New Haven lost ACES-ECA.
