Dear Governor Rell, although I understand the need to 'tighten our belts' in these challenging economic times, I am appalled that we may consider doing so at the expense of our children's health! The small token of financial assistance provided to our schools for a more healthier lunch option should not become something to reduce so that we might balance a budget. Would we lower the investment in a child's education? I hope not. Then we shouldn't lessen the opportunity to help ensure their health.

Please do not cut the meal reimbursement for healthier food.

Thank you,

John Turenne

President
