Energy and Technology Committee Chairs:

Sen. John Fonfara  
Rep. Vickie Nardello

**SB 670, AN ACT PROMOTING HYDROELECTRIC POWER FOR MANUFACTURING**

This bill would help to diminish monthly electric bills for those manufacturing facilities that incorporate and promote Hydroelectric Power. It would do so via a credit to various demand charges such as distribution charges, competitive transition assessment, and transmission services or equivalent demand charges. The importance of this initiative can not be understated in the Jewett City area where manufacturing has all but vanished. We would hope that the savings that would result from this legislation would encourage job retention and perhaps job growth in the area and we would respectfully ask for support of this legislation.

Sincerely,

A handwritten signature in black ink, appearing to read "Steven Mikutel".

Steven Mikutel  
State Representative
