

Written Testimony of Rebekah McMahon,

Before the Connecticut General Assembly Energy and Technology Committee

March 10, 2009

Testimony in support of HB 6635, An Act Concerning Solar Power

I am a huge proponent of community-level alternative and sustainable energy sources including both solar and turbine (wind power). Community solar projects as well as Utility-scale Solar options would go a long way in making CT a leader in the fight against global climate change and energy independence!

Thank you for your time
