Re: General Assembly Proposed Bill No. 5426

Dear Members of the Committee on Human Services:

I am writing to support the above numbered Bill. The reason is because I am a mother with 5 children and I know a great deal about the difficulty that is involved with securing decent child care.

I know how expensive child care is these days and, without a subsidy, I and people like me would not have any way to insure that, while I am working or looking for work, my child would be safe and secure. I believe that your Bill will go a long way towards achieving my personal goals, especially at a time when unemployment is so high and jobs are so difficult to secure.

Families, not just banks and big business must be at the center of our nation's economic recovery.

I do hope that this Bill will be favorably considered and approved. If you desire additional information, please do not hesitate to contact me.

Sincerely,
