

Dear Sirs,

I am writing you this letter because I favor putting small business out of business by effecting cost prohibitive legislation. This bill would do so. Not only does the bill hurt small business it tells small business owners that the legislature know a much better to run their business & if they don't like it that they should move to a more competitive state to run their business.

I like a quite state & if a legislative agenda like this continues it will get quieter & quieter in Connecticut with all of the businesses moving out.

Cordially,

Rick Rice
