

**Testimony in Opposition to Raised H.B. No. 5466, An Act Concerning Climate Change**

I, Michelle Stearns, Founder of GreenTime Consulting and resident of Fairfield, write in opposition to H.B. 5466, An Act Concerning Climate Change. I don't think the best use of time and resources from the Department of Environmental Protection and the Department of Public Utility Control are to do an analysis on every state dollar spent on any program related to global warming emissions.

Environmental leaders believe it will slow progress on reducing the state's greenhouse gases by wasting the time of already overburdened and underfunded state agencies. I ask you to reject this bill.

Sincerely,

Michelle Stearns
