To whom it may concern;

Last fall, I was very excited to learn about ATT U-verse. To have options as to your TV service is good for consumers. To be able to offer PEG programming as we have it on cable is even more exciting. As Video Production Coordinator for the Town of New Fairfield ( I run the local Educational Access Channel ), I have been asked by residents who do not have Cable, if they could view CH 17 on their TVs. In the past, I had to tell them no. Now they ask, "When will they (ATT U-verse) turn us on?" I was gratified to learn that ATT U-verse would pay for the device to make that happen. We are now in the process of getting what we need to put our channel onto ATT U-verse. After a very friendly and informative visit from the folks at ATT U-verse, we are seeking vendors who have the best to offer. It is our hope to be up and running by end of April 2010.

Roman Juskiewicz  
Video Production Coordinator.
