Re: Letter of intent to kill Bill #-HB5298

To Whom It May Concern,

Insurance & Real Estate Committee

We are an independent family run glass company, operating solely in Connecticut for approximately for 29 years with approximately 25 employees.

Due to the overwhelming pressure of the U.S. corporate glass companies along with 80% of the insurance companies steering their insured's through "controlled networks", our only defense as a smaller sized independent company is to provide our loyal customers with small tokens of appreciation.

Thank You for your consideration in this matter.

Sincerely,

President
