Subject: HB 5473 Statute of Limitations in Sexual Abuse Cases

I support the passage of HB 5473 which proposes to eliminate the civil statute of limitations in child sex abuse cases. I believe the current limitation is the 48th birthday of the victim. With the passage of this bill, there would be no limitation on the time a victim could sue for damages. I am in total agreement with the elimination of any limitation on that right to sue and therefore, urge the passage of this bill.
