If such person does not obtain a master’s degree in such time period, such person shall not be eligible for a professional educator certificate.

Sec. 2. Section 10-157 of the general statutes is repealed and the following is substituted in lieu thereof (Effective July 1, 2010):

The superintendent shall have executive authority over the school system and the responsibility for its supervision. Employment of a superintendent shall be by election of the board of education. Except as provided in subsection (b) of this section, no person shall assume the duties and responsibilities of the superintendent until the board receives written confirmation from the Commissioner of Education that the person to be employed is properly certified or has had such certification waived by the commissioner pursuant to subsection (c) of this section. The commissioner shall inform any such board, in writing, of the proper certification, waiver of certification or lack of certification or waiver of any such person not later than fourteen days after the name of such person is submitted to the commissioner pursuant to section 10-226. Upon election and notification of employment or reemployment, the superintendent may request and the board shall provide a written contract of employment which includes, but not be limited to, the salary, employment benefits and term of office of such superintendent. Such superintendent shall, at least three weeks before the annual town or regional school district meeting, submit to the board a full written report of the proceedings of such board and of the condition of the several schools during the school year preceding, with plans and suggestions for their improvement. The board of education shall evaluate the performance of the superintendent annually in accordance with guidelines and criteria mutually determined and agreed to by such board and such superintendent.

(b) A local or regional board of education may appoint as acting superintendent a person who is or is not properly certified for a specified period of time, not to exceed ninety days, with the approval of the Commissioner of Education. Such acting superintendent shall
assume all duties of the superintendent for the time specified, provided such period of time may be extended with the approval of the commissioner, which he shall grant for good cause shown.

(c) The commissioner may, upon request of an employing local or regional board of education, grant a waiver of certification to a person (1) who has successfully completed at least three years of experience as a certified administrator with a superintendent certificate issued by another state in a public school in another state during the ten-year period prior to the date of application, or (2) who the commissioner deems to be exceptionally qualified for the position of superintendent. In order for the commissioner to find a person exceptionally qualified, such person shall (1) be an acting superintendent pursuant to subsection (b) of this section, (2) have worked as a superintendent in another state for no fewer than fifteen years, and (3) be certified or have been certified as a superintendent by such other state.

Sec. 3. Section 10-10a of the 2010 supplement to the general statutes is repealed and the following is substituted in lieu thereof (Effective July 1, 2010):

(a) As used in this section:

(1) "Teacher" means any certified professional employee below the rank of superintendent employed by a board of education for at least ninety days in a position requiring a certificate issued by the State Board of Education;

[(a)] (b) The Department of Education shall develop and implement a state-wide public school information system. The system shall be designed for the purpose of establishing a standardized electronic data
collection and reporting protocol that will facilitate compliance with 
state and federal reporting requirements, improve school-to-school 
and district-to-district information exchanges, and maintain the 
confidentiality of individual student and staff data. The initial design 
shall focus on student information, provided the system shall be 
created to allow for future compatibility with financial, facility and 
staff data. The system shall provide for the tracking of the performance 
of individual students on each of the state-wide mastery examinations 
under section 10-14n in order to allow the department to compare the 
progress of the same cohort of students who take each examination 
and to better analyze school performance. The department shall assign 
a unique student identifier to each student prior to tracking the 
performance of a student in the public school information system.

(c) On or before July 1, 2013, the department shall expand the state-
wide public school information system as follows:

(1) Track and report data relating to student, teacher and school and 
district performance growth and make such information available to 
local and regional boards of education for use in evaluating 
educational performance and growth of teachers and students enrolled 
in public schools in the state. Such information shall be collected or 
calculated based on information received from local and regional 
boards of education and other relevant sources. Such information shall 
include, but not be limited to:

(A) In addition to performance on state-wide mastery examinations 
pursuant to subsection (b) of this section, data relating to students shall 
include, but not be limited to, (i) the level of education achieved by the 
parents of a student, (ii) the primary language spoken at the home of a 
student, (iii) student transcripts, (iv) student attendance and student 
mobility, and (v) reliable, valid assessments of a student's readiness to 
enter public school at the kindergarten level;

(B) Data relating to teachers shall include, but not be limited to, (i) 
teacher credentials, such as master's degrees, teacher preparation
programs completed and certification levels and endorsement areas,
(ii) teacher assessments, such as whether a teacher is deemed highly qualified pursuant to the No Child Left Behind Act, P.L. 107-110, or deemed to meet such other designations as may be established by federal law or regulations for the purposes of tracking the equitable distribution of instructional staff, (iii) the presence of substitute teachers in a teacher's classroom, (iv) class size, (v) numbers relating to absenteeism in a teacher's classroom, and (vi) the presence of a teacher's aide. The department shall assign a unique teacher identifier to each teacher prior to collecting such data in the public school information system;

(C) Data relating to schools and districts shall include, but not be limited to, (i) school population, (ii) annual student graduation rates, (iii) annual teacher retention rates, (iv) school disciplinary records, such as data relating to suspensions, expulsions and other disciplinary actions, (v) the percentage of students whose primary language is not English, (vi) the number of and professional credentials of support personnel, and (vii) information relating to instructional technology, such as access to computers.

(2) Collect data relating to student enrollment in and graduation from institutions of higher education for any student who had been assigned a unique student identifier pursuant to subsection (b) of this section, provided such data is available.

(3) Develop means for access to and data sharing with the data systems of public institutions of higher education in the state.

(d) On or before July 1, 2011, and each year thereafter until July 1, 2013, the Commissioner of Education shall report, in accordance with the provisions of section 11-4a, to the joint standing committee of the General Assembly having cognizance of matters relating to education on the progress of the department's efforts to expand the state-wide public school information system pursuant to subsection (c) of this section. The report shall include a full statement of those data elements
that are currently included in the system and those data elements that
will be added on or before July 1, 2013.

[(b)] (e) The system database of student information shall not be
considered a public record for the purposes of section 1-210. Nothing
in this section shall be construed to limit the ability of a full-time
permanent employee of a nonprofit organization that is exempt from
taxation under Section 501(c)(3) of the Internal Revenue Code of 1986,
or any subsequent corresponding internal revenue code of the United
States, as from time to time amended, and that is organized and
operated for educational purposes, to obtain information in accordance
with the provisions of subsection [(e)] (h) of this section.

[(c)] (f) All school districts shall participate in the system, and report
all necessary information required by this section, provided the
department provides for technical assistance and training of school
staff in the use of the system.

[(d)] (g) Local and regional boards of education and preschool
programs which receive state or federal funding shall participate, in a
manner prescribed by the Commissioner of Education, in the state-
wide public school information system described in subsection [(a)] (b)
of this section. Participation for purposes of this subsection shall
include, but not be limited to, reporting on (1) student experiences in
preschool by program type and by numbers of months in each such
program, and (2) the readiness of students entering kindergarten and
student progress in kindergarten. Such reporting shall be done by
October 1, 2007, and annually thereafter.

[(e)] (h) On and after August 1, 2009, upon receipt of a written
request to access data maintained under this section by a full-time
permanent employee of a nonprofit organization that is exempt from
taxation under Section 501(c)(3) of the Internal Revenue Code of 1986,
or any subsequent corresponding internal revenue code of the United
States, as from time to time amended, and that is organized and
operated for educational purposes, the Department of Education shall
provide such data to such requesting party not later than sixty days after such request, provided such requesting party shall be responsible for the reasonable cost of such request. The Department of Information Technology shall monitor the calculation of such fees charged for access to or copies of such records to ensure that such fees are reasonable and consistent with those charged by other state agencies. The Department of Education shall respond to written requests under this section in the order in which they are received.

Sec. 4. Section 10-151b of the general statutes is repealed and the following is substituted in lieu thereof (Effective July 1, 2010):

(a) The superintendent of each local or regional board of education shall continuously evaluate or cause to be evaluated each teacher, in accordance with guidelines established by the State Board of Education, pursuant to subsection (c) of this section, for the development of evaluation programs and such other guidelines as may be established by mutual agreement between the local or regional board of education and the teachers' representative chosen pursuant to section 10-153b, continuously evaluate or cause to be evaluated each teacher. with the provisions of subsection (b) of section 10-220a.

(c) On or before July 1, 2013, the State Board of Education shall
adopt, in consultation with the Performance Evaluation Advisory

model teacher evaluation program. Such guidelines shall provide
guidance on the use of multiple indicators of student academic growth
in teacher evaluations. Such guidelines shall include, but not be limited
to: (1) Methods for assessing student academic growth; (2) a
consideration of control factors tracked by the state-wide public school
information system, pursuant to subsection (c) of section 10-10a, as
amended by this act, that may influence teacher performance ratings,

attendance and student mobility; and (3) minimum requirements for
teacher evaluation instruments and procedures.

(NEW) (Effective July 1, 2010) (a) A local or regional board of education for a school district identified as a priority school district, pursuant to section 10-266p of the general statutes, may, through agreement with the organizations designated or elected as the exclusive representatives of the teachers' and administrators' units, as defined in section 10-153b of the general statutes, convert an existing public school into an innovation school or establish a new school as an innovation school, in accordance with the provisions of this section, for purposes of improving school performance and student achievement. For purposes of this section, an innovation school is a school in which:

(1) Faculty and district leadership are responsible for developing an innovation plan, as described in subsection (b) of this section, under which the school operates and the administrators of the school are responsible for meeting the terms of the innovation plan; or (2) an external partner is responsible for developing the innovation plan, as described in subsection (b) of this section, under which the school operates and the external partner is responsible for meeting the terms of the innovation plan. For purposes of this section, an external partner may include a public or private institution of higher education, nonprofit charter school operators, educational collaboratives or a consortia authorized by the Commissioner of Education that may include public or private institutions of higher education, parents, the organizations designated or elected as the exclusive representatives of the teachers' and administrators' units, as defined in said section 10-153b, superintendents or boards of education. (d) Innovation schools authorized under this section shall be evaluated annually by the superintendent of schools for the school district. The superintendent shall submit the evaluation to the local or regional board of education and the Commissioner of Education. The evaluation shall determine whether the school has met the annual goals outlined in the innovation plan for the school and assess the implementation of the innovation plan at the school. The superintendent may amend or suspend one or more components of the innovation plan if the superintendent determines, after one year, an amendment is necessary because of subsequent changes in the school district that affect one or more components of such innovation plan. If the superintendent determines that the school has substantially failed to meet the goals outlined in the innovation plan, the local or regional board of education may: (A) Amend one or more components of the innovation plan; (B) suspend one or more components of the innovation plan; or (C) terminate the authorization of the school, provided the amending or suspension shall not take place before the completion of the second full year of the operation of the school and
the termination shall not take place before the completion of the third
full year of the operation of the school. Any amendment to or
suspension of any component of the innovation plan that changes the
contract of employment for any teacher employed at the school shall
be approved by a two-thirds vote of the members of the exclusive
bargaining representative for the teachers employed at the school prior
to any such amendment or suspension of the innovation plan.

(e) The local or regional board of education shall allow a student
who is enrolled in a school at the time it is established as an innovation
school pursuant to this section to remain enrolled in the school if the
student and the student's parents choose to have the student remain.

Sec. 7. Section 10-223e of the general statutes is repealed and the
following is substituted in lieu thereof (Effective July 1, 2010):

(a) In conformance with the No Child Left Behind Act, P.L. 107-110,
the Commissioner of Education shall prepare a state-wide education
accountability plan, consistent with federal law and regulation. Such
plan shall identify the schools and districts in need of improvement,
require the development and implementation of improvement plans
and utilize rewards and consequences.

(b) Public schools identified by the State Board of Education
pursuant to section 10-223b of the general statutes, revision of 1958,
revised to January 1, 2001, as schools in need of improvement shall: (1)
Continue to be identified as schools in need of improvement, and
continue to operate under school improvement plans developed
pursuant to said section 10-223b through June 30, 2004; (2) on or before
February 1, 2003, be evaluated by the local board of education and
determined to be making sufficient or insufficient progress; (3) if found
to be making insufficient progress by a local board of education, be
subject to a new remediation and organization plan developed by the
local board of education; (4) continue to be eligible for available federal
or state aid; (5) beginning in February, 2003, be monitored by the
Department of Education for adequate yearly progress, as defined in
the state accountability plan prepared in accordance with subsection (a) of this section; and (6) be subject to rewards and consequences as defined in said plan.

(c) (1) Any school or school district identified as in need of improvement pursuant to subsection (a) of this section and requiring corrective action pursuant to the requirements of the No Child Left Behind Act, P.L. 107-110, shall be designated and listed as a low achieving school or school district and shall be subject to intensified supervision and direction by the State Board of Education.

(2) Notwithstanding any provision of this title or any regulation adopted pursuant to said statutes, except as provided in subdivision (3) of this subsection, in carrying out the provisions of subdivision (1) of this subsection, the State Board of Education shall take any of the following actions to improve student performance and remove the school or district from the list of schools or districts designated and listed as a low achieving school or district pursuant to said subdivision (1), and to address other needs of the school or district: (A) Require an operations audit to identify possible programmatic savings and an instructional audit to identify any deficits in curriculum and instruction or in the learning environment of the school or district; (B) require the local or regional board of education for such school or district to use state and federal funds for critical needs, as directed by the State Board of Education; (C) provide incentives to attract highly qualified teachers and principals; (D) direct the transfer and assignment of teachers and principals; (E) require additional training and technical assistance for parents and guardians of children attending the school or a school in the district and for teachers, principals, and central office staff members hired by the district; (F) require the local or regional board of education for the school or district to implement model curriculum, including, but not limited to, recommended textbooks, materials and supplies approved by the Department of Education; (G) identify schools for reconstitution, as may be phased in by the commissioner, as state or local charter schools, schools established pursuant to section 10-74g, innovation
schools established pursuant to section 6 of this act, or schools based
on other models for school improvement, or for management by an
entity other than the local or regional board of education for the
district in which the school is located; (H) direct the local or regional
board of education for the school or district to develop and implement
a plan addressing deficits in achievement and in the learning
environment as recommended in the instructional audit; (I) assign a
technical assistance team to the school or district to guide school or
district initiatives and report progress to the Commissioner of
Education; (J) establish instructional and learning environment
benchmarks for the school or district to meet as it progresses toward
removal from the list of low achieving schools or districts; (K) provide
funding to any proximate district to a district designated as a low
achieving school district so that students in a low achieving district
may attend public school in a neighboring district; (L) direct the
establishment of learning academies within schools that require
continuous monitoring of student performance by teacher groups; (M)
require local and regional boards of education to (i) undergo training
to improve their operational efficiency and effectiveness as leaders of
their districts' improvement plans, and (ii) submit an annual action
plan to the Commissioner of Education outlining how, when and in
what manner their effectiveness shall be monitored; or (N) any
combination of the actions described in this subdivision or similar,
closely related actions.

(3) If a directive of the State Board of Education pursuant to
subsection (C), (D), (E), (G) or (L) of subdivision (2) of this
section or a directive to implement a plan pursuant to
subsection (H) of said subdivision affects working conditions, such
directive shall be carried out in accordance with the provisions of
sections 10-153a to 10-153n, inclusive.

(4) The Comptroller shall, pursuant to the provisions of section 10-
262i, withhold any grant funds that a town is otherwise required to
appropriate to a local or regional board of education due to low
academic achievement in the school district pursuant to section 10-
262h. Said funds shall be transferred to the Department of Education and shall be expended by the department on behalf of the identified school district. Said funds shall be used to implement the provisions of subdivision (2) of this subsection and to offset such other local education costs that the Commissioner of Education deems appropriate to achieve school improvements. These funds shall be awarded by the commissioner to the local or regional board of education for such identified school district upon condition that said funds shall be spent in accordance with the directives of the commissioner.

(d) The State Board of Education shall monitor the progress of each school or district designated as a low achieving school or district pursuant to subdivision (1) of subsection (c) of this section and provide notice to the local or regional board of education for each such school or district's progress toward meeting the benchmarks established by the State Board of Education pursuant to subsection (c) of this section. If a district fails to make acceptable progress toward meeting such benchmarks established by the State Board of Education and fails to make adequate yearly progress pursuant to the requirements of the No Child Left Behind Act, P.L. 107-110, for two consecutive years while designated as a low achieving school district, the State Board of Education, after consultation with the Governor and chief elected official or officials of the district, may (1) request that the General Assembly enact legislation authorizing that control of the district be reassigned to the State Board of Education or other authorized entity or (2) notwithstanding the provisions of chapter 146, any special act, charter or ordinance, grant the Commissioner of Education the authority to reconstitute the local or regional board of education for such school district in accordance with the provisions of subsection (g) of this section.

(e) Any school district or elementary school after two successive years of failing to make adequate yearly progress shall be designated as a low achieving school district or school and shall be evaluated by the Commissioner of Education. After such evaluation, the
commissioner may require that such school district or school provide
full-day kindergarten classes, summer school, extended school day,
weekend classes, tutorial assistance to its students or professional
development to its administrators, principals, teachers and
paraprofessional teacher aides if (1) on any subpart of the third grade
state-wide mastery examination, thirty per cent or more of the students
in any subgroup, as defined by the No Child Left Behind Act, P.L. 107-110,
do not achieve the level of proficiency or higher, or (2) the
commissioner determines that it would be in the best educational
interests of the school or the school district to have any of these
programs. In ordering any educational program authorized by this
subsection, the commissioner may limit the offering of the program to
the subgroup of students that have failed to achieve proficiency as
determined by this subsection, those in particular grades or those who
are otherwise at substantial risk of educational failure. The costs of
instituting the ordered educational programs shall be borne by the
identified low achieving school district or the school district in which
an identified low achieving school is located. The commissioner shall
not order an educational program that costs more to implement than
the total increase in the amount of the grant that a town receives
pursuant to section 10-262i in any fiscal year above the prior fiscal
year.

(f) The Commissioner of Education shall conduct a study, within the
limits of the capacity of the Department of Education to perform such
study, of academic achievement of individual students over time as
measured by performance on the state-wide mastery examination in
grades three to eight, inclusive. If this study evidences a pattern of
continuous and substantial growth in educational performance on said
examinations for individual students, then the commissioner may
determine that the school district or elementary school shall not be
subject to the requirements of subsection (e) of this section, but shall
still comply with the requirements of the No Child Left Behind Act,
P.L. 107-110, if applicable.

(g) The State Board of Education may authorize the Commissioner
of Education to reconstitute a local or regional board of education
pursuant to subdivision (2) of subsection (d) of this section for a period
of not more than five years. The board shall not grant such authority to
the commissioner unless the board has required the local or regional
board of education to complete the training described in subparagraph
(M) of subdivision (2) of subsection (c) of this section. Upon such
authorization by the board, the commissioner shall terminate the
existing local or regional board of education and appoint the members
of a new local or regional board of education for the school district.
Such appointed members may include members of the board of
education that was terminated. The terms of the members of the new
board of education shall be three years. The department of education
shall offer training to the members of the new board of education. The
new board of education shall annually report to the commissioner
regarding the district's progress toward meeting the benchmarks
established by the State Board of Education pursuant to subsection (c)
of this section and making adequate yearly progress, as defined in the
state accountability plan prepared in accordance with subsection (a) of

purposes of calculating continuous employment towards tenure, the
following shall apply: (i) For a teacher who has not attained tenure,
two school months of part-time continuous employment by such

(2) "Local charter school" means a public school or part of a public school that is converted into a charter school and is approved by the local or regional board of education of the school district in which it is located and by the State Board of Education pursuant to subsection (e) of section 10-66bb, as amended by this act; [and]

(3) "State charter school" means a new public school approved by the State Board of Education pursuant to subsection (f) of section 10-66bb, as amended by this act;

this section. (1) Except as provided for in subdivision (2) of this
subsection, no state charter school shall enroll (A) (i) more than two

students are members of racial or ethnic minorities and to applicants
for state charter schools that will be located at a work-site or that are
institutions of higher education. In determining whether to grant a
charter, the State Board of Education shall consider the effect of the
proposed charter school on the reduction of racial, ethnic and
economic isolation in the region in which it is to be located, the
regional distribution of charter schools in the state and the potential of
over-concentration of charter schools within a school district or in
contiguous school districts.
(d) Applications pursuant to this section shall include a description of: (1) The mission, purpose and any specialized focus of the proposed charter school; (2) the interest in the community for the establishment of the charter school; (3) the school governance and procedures for the establishment of a governing council that (A) includes (i) teachers and parents and guardians of students enrolled in the school, and (ii) the chairperson of the local or regional board of education of the town in which the charter school is located and which has jurisdiction over a school that resembles the approximate grade configuration of the charter school, or the designee of such chairperson, provided such designee is a member of the board of education or the superintendent of schools for the school district, and (B) is responsible for the oversight of charter school operations, provided no member or employee of the governing council may have a personal or financial interest in the assets, real or personal, of the school; (4) the financial plan for operation of the school, provided no application fees or other fees for attendance, except as provided in this section, may be charged; (5) the educational program, instructional methodology and services to be offered to students; (6) the number and qualifications of teachers and administrators to be employed in the school; (7) the organization of the school in terms of the ages or grades to be taught and the total estimated enrollment of the school; (8) the student admission criteria and procedures to (A) ensure effective public information, (B) ensure open access on a space available basis, (C) promote a diverse student body, and (D) ensure that the school complies with the provisions of section 10-15c and that it does not discriminate on the basis of disability, athletic performance or proficiency in the English language, provided the school may limit enrollment to a particular grade level or specialized educational focus and, if there is not space available for all students seeking enrollment, the school may give preference to siblings but shall otherwise determine enrollment by a lottery; (9) a means to assess student performance that includes participation in state-wide mastery examinations pursuant to chapter 163c; (10) procedures for teacher evaluation and professional development for teachers and administrators; (11) the provision of school facilities, pupil
transportation and student health and welfare services; (12) procedures to encourage involvement by parents and guardians of enrolled students in student learning, school activities and school decision-making; (13) document efforts to increase the racial and ethnic diversity of staff; and (14) a five-year plan to sustain the maintenance and operation of the school. Subject to the provisions of subsection (b) of section 10-66dd, as amended by this act, an application may include, or a charter school may file, requests to waive provisions of the general statutes and regulations not required by sections 10-66aa to 10-66ff, inclusive, as amended by this act, and which are within the jurisdiction of the State Board of Education.

(e) An application for the establishment of a local charter school shall be submitted to the local or regional board of education of the school district in which the local charter school is to be located for approval pursuant to this subsection. The local or regional board of education shall: (1) Review the application; (2) hold a public hearing in the school district on such application; (3) survey teachers and parents in the school district to determine if there is sufficient interest in the establishment and operation of the local charter school; and (4) vote on a complete application not later than sixty days after the date of receipt of such application. Such board of education may approve the application by a majority vote of the members of the board present and voting at a regular or special meeting of the board called for such purpose. If the application is approved, the board shall forward the application to the State Board of Education. The State Board of Education shall vote on the application not later than seventy-five days after the date of receipt of such application. Subject to the provisions of subsection (c) of this section, the State Board of Education may approve the application and grant the charter for the local charter school or reject such application by a majority vote of the members of the state board present and voting at a regular or special meeting of the state board called for such purpose. The State Board of Education may condition the opening of such school on the school's meeting certain conditions determined by the Commissioner of Education to be
necessary and may authorize the commissioner to release the charter when the commissioner determines such conditions are met. The state board may grant the charter for the local charter school for a period of time of up to five years and may allow the applicant to delay its opening for a period of up to one school year in order for the applicant to fully prepare to provide appropriate instructional services.

(f) An application for the establishment of a state charter school shall be (1) submitted to the State Board of Education for approval in accordance with the provisions of this subsection, and (2) filed with the local or regional board of education in the school district in which the charter school is to be located. The state board shall: (A) Review such application; (B) hold a public hearing on such application in the school district in which such state charter school is to be located; (C) solicit and review comments on the application from the local or regional board of education for the school district in which such charter school is to be located and from the local or regional boards of education for school districts that are contiguous to the district in which such school is to be located; and (D) vote on a complete application not later than seventy-five days after the date of receipt of such application. The State Board of Education may approve an application and grant the charter for the state charter school by a majority vote of the members of the state board present and voting at a regular or special meeting of the state board called for such purpose. The State Board of Education may condition the opening of such school on the school's meeting certain conditions determined by the Commissioner of Education to be necessary and may authorize the commissioner to release the charter when the commissioner determines such conditions are met. Charters shall be granted for a period of time of up to five years and may allow the applicant to delay its opening for a period of up to one school year in order for the applicant to fully prepare to provide appropriate instructional services.

(g) Charters may be renewed, upon application, in accordance with the provisions of this section for the granting of such charters. Upon application for such renewal, the State Board of Education may
commission an independent appraisal of the performance of the charter school that includes, but is not limited to, an evaluation of the school's compliance with the provisions of this section. The State Board of Education shall consider the results of any such appraisal in determining whether to renew such charter. The State Board of Education may deny an application for the renewal of a charter if (1) student progress has not been sufficiently demonstrated, as determined by the commissioner, (2) the governing council has not been sufficiently responsible for the operation of the school or has misused or spent public funds in a manner that is detrimental to the educational interests of the students attending the charter school, or (3) the school has not been in compliance with applicable laws and regulations. If the State Board of Education does not renew a charter, it shall notify the governing council of the charter school of the reasons for such nonrenewal.

(h) The Commissioner of Education may at any time place a charter school on probation if (1) the school has failed to (A) adequately demonstrate student progress, as determined by the commissioner, (B) comply with the terms of its charter or with applicable laws and regulations, (C) achieve measurable progress in reducing racial, ethnic and economic isolation, or (D) maintain its nonsectarian status, or (2) the governing council has demonstrated an inability to provide effective leadership to oversee the operation of the charter school or has not ensured that public funds are expended prudently or in a manner required by law. If a charter school is placed on probation, the commissioner shall provide written notice to the charter school of the reasons for such placement, not later than five days after the placement, and shall require the charter school to file with the Department of Education a corrective action plan acceptable to the commissioner not later than thirty-five days from the date of such placement. The charter school shall implement a corrective action plan accepted by the commissioner not later than thirty days after the date of such acceptance. The commissioner may impose any additional terms of probation on the school that the commissioner deems
necessary to protect the educational or financial interests of the state. The charter school shall comply with any such additional terms not later than thirty days after the date of their imposition. The commissioner shall determine the length of time of the probationary period, which may be up to one year, provided the commissioner may extend such period, for up to one additional year, if the commissioner deems it necessary. In the event that the charter school does not file or implement the corrective action plan within the required time period or does not comply with any additional terms within the required time period, the Commissioner of Education may withhold grant funds from the school until the plan is fully implemented or the school complies with the terms of probation, provided the commissioner may extend the time period for such implementation and compliance for good cause shown. Whenever a charter school is placed on probation, the commissioner shall notify the parents or guardians of students attending the school of the probationary status of the school and the reasons for such status. During the term of probation, the commissioner may require the school to file interim reports concerning any matter the commissioner deems relevant to the probationary status of the school, including financial reports or statements. No charter school on probation may increase its student enrollment or engage in the recruitment of new students without the consent of the commissioner.

(i) The State Board of Education may revoke a charter if a charter school has failed to: (1) Comply with the terms of probation, including the failure to file or implement a corrective action plan; (2) demonstrate satisfactory student progress, as determined by the commissioner; (3) comply with the terms of its charter or applicable laws and regulations; or (4) manage its public funds in a prudent or legal manner. Unless an emergency exists, prior to revoking a charter, the State Board of Education shall provide the governing council of the charter school with a written notice of the reasons for the revocation, including the identification of specific incidents of noncompliance with the law, regulation or charter or other matters warranting revocation.
of the charter. It shall also provide the governing council with the opportunity to demonstrate compliance with all requirements for the retention of its charter by providing the State Board of Education or a subcommittee of the board, as determined by the State Board of Education, with a written or oral presentation. Such presentation shall include an opportunity for the governing council to present documentary and testimonial evidence to refute the facts cited by the State Board of Education for the proposed revocation or in justification of its activities. Such opportunity shall not constitute a contested case within the meaning of chapter 54. The State Board of Education shall determine, not later than thirty days after the date of an oral presentation or receipt of a written presentation, whether and when the charter shall be revoked and notify the governing council of the decision and the reasons therefor. A decision to revoke a charter shall not constitute a final decision for purposes of chapter 54. In the event an emergency exists in which the commissioner finds that there is imminent harm to the students attending a charter school, the State Board of Education may immediately revoke the charter of the school, provided the notice concerning the reasons for the revocation is sent to the governing council not later than ten days after the date of revocation and the governing council is provided an opportunity to make a presentation to the board not later than twenty days from the date of such notice.

(b) (1) Subject to the provisions of this subsection and except as may be waived pursuant to subsection (d) of section 10-66bb, as amended by this act, charter schools shall be subject to all federal and state laws governing public schools.
(2) At least one-half of the persons providing instruction or pupil services in a charter school shall possess the proper certificate other than (A) a certificate issued pursuant to subdivision (1) of subsection (c) of section 10-145b, or (B) a temporary certificate issued pursuant to subsection (c) of section 10-145f on the day the school begins operation and the remaining persons shall possess a certificate issued pursuant to said subdivision (1) or such temporary certificate on such day.

(3) The commissioner may not waive the provisions of chapters 163c and 169 and sections 10-15c, 10-153a to 10-153g, inclusive, 10-153i, 10-153j, 10-153m and 10-292.

(4) The state charter school governing council shall act as a board of education for purposes of collective bargaining. The school professionals employed by a local charter school shall be members of the appropriate bargaining unit for the local or regional school district in which the local charter school is located and shall be subject to the same collective bargaining agreement as the school professionals employed by said district. A majority of those employed or to be employed in the local charter school and a majority of the members of the governing council of the local charter school may modify, in writing, such collective bargaining agreement, consistent with the terms and conditions of the approved charter, for purposes of employment in the charter school.

(c) School professionals employed by a local or regional board of education shall be entitled to a two-year leave of absence, without compensation, in order to be employed in a charter school provided such leave shall be extended upon request for an additional two years. At any time during or upon the completion of such a leave of absence, a school professional may return to work in the school district in the position in which he was previously employed or a comparable position. Such leave of absence shall not be deemed to be an interruption of service for purposes of seniority and teachers' retirement, except that time may not be accrued for purposes of attaining tenure. A school professional who is not on such a leave of
absence and is employed for forty school months of full-time continuous employment by the charter school and is subsequently employed by a local or regional board of education shall attain tenure after the completion of twenty school months of full-time continuous employment by such board of education in accordance with section 10-151.

(d) (1) An otherwise qualified school professional hired by a charter school prior to July 1, 2010, and employed in a charter school may participate in the state teacher retirement system under chapter 167a on the same basis as if such professional were employed by a local or regional board of education. The governing council of a charter school shall make the contributions, as defined in subdivision (7) of section 10-183b for such professional.

(2) An otherwise qualified school professional hired by a charter school on or after July 1, 2010, and who has not previously been employed by a charter school in this state prior to July 1, 2010, shall participate in the state teacher retirement system under chapter 176a on the same basis as if such professional were employed by a local or regional board of education. The governing council of a charter school shall make the contributions, as defined in subdivision (7) of section 10-183b for such professional.

Sec. 15. Section 10-66hh of the general statutes is repealed and the following is substituted in lieu thereof (Effective from passage):

The governing authorities of such state charter schools may apply for such grants to the Department of Education at such time and in such
manner as the commissioner prescribes. The commissioner shall give preference to applications that provide for matching funds from nonstate sources.

(b) All final calculations for grant awards pursuant to this section in an amount equal to or greater than two hundred fifty thousand dollars shall include a computation of the state grant amount amortized on a straight line basis over a ten-year period. Any state charter school which abandons, sells, leases, demolishes or otherwise redirects the use of a school building which benefited from such a grant award during such amortization period, including repayment of debt for the purchase, renovation or improvement of the building, shall refund to the state the unamortized balance of the state grant remaining as of the date that the abandonment, sale, lease, demolition or redirection occurred. The amortization period shall begin on the date the grant award is paid. A state charter school required to make a refund to the state pursuant to this subsection may request forgiveness of such refund if the building is redirected for public use.

Sec. 16. (NEW) (Effective July 1, 2010) On or before July 1, 2011, the State Board of Education shall adopt regulations, in accordance with the provisions of chapter 54 of the general statutes, to (1) prohibit a charter school and any affiliated charter management organization operating such charter school from sharing board members with other charter schools and such charter management organizations; (2) require the disclosure of sharing management personnel; (3) prohibit unsecured, noninterest bearing transfers of state and federal funds between charter schools and from charter schools to charter management organizations; (4) define allowable direct or indirect costs and the methodology to be used by charter management organizations to calculate per pupil service fees; and (5) permit charter management organizations to collect private donations for purposes of distributing to charter schools.

(d) Commencing with classes graduating in 2018, and for each graduating class thereafter, local and regional boards of education shall provide adequate student support and remedial services for students beginning in grade seven. Such student support and remedial services shall provide alternate means for a student to complete any of the high school graduation requirements or end of the school year examinations described in subsection (c) of this section, if such student is unable to satisfactorily complete any of the required courses or exams. Such student support and remedial services shall include, but not be limited to, (1) allowing students to retake courses in summer school or through an on-line course; (2) allowing students to enroll in a class offered at a constituent unit of the state system of higher education, as defined in section 10a-1, pursuant to subdivision (4) of subsection (g) of this section; (3) allowing students who received a failing score, as determined by the Commissioner of Education, on an end of the school year exam to take an alternate form of the exam; and (4) allowing those students whose individualized education plans state that such students are eligible for an alternate assessment to demonstrate competency on any of the five core courses through success on such alternate assessment.

[(c)] (e) Any student who presents a certificate from a physician stating that, in the opinion of the physician, participation in physical education is medically contraindicated because of the physical
condition of such student, shall be excused from the physical education requirement, provided the credit for physical education may be fulfilled by an elective.

[(d)] (f) Determination of eligible credits shall be at the discretion of the local or regional board of education, provided the primary focus of the curriculum of eligible credits corresponds directly to the subject matter of the specified course requirements. The local or regional board of education may permit a student to graduate during a period of expulsion pursuant to section 10-233d, if the board determines the student has satisfactorily completed the necessary credits pursuant to this section. The requirements of this section shall apply to any student requiring special education pursuant to section 10-76a, except when the planning and placement team for such student determines the requirement not to be appropriate. For purposes of this section, a credit shall consist of not less than the equivalent of a forty-minute class period for each school day of a school year except for a credit or part of a credit toward high school graduation earned (1) at an institution accredited by the Department of Higher Education or regionally accredited; or (2) through on-line coursework that is in accordance with a policy adopted pursuant to subsection (g) of this section.

[(e)] (g) Only courses taken in grades nine through twelve, inclusive, shall satisfy this graduation requirement, except that a local or regional board of education may grant a student credit (1) toward meeting a specified course requirement upon the successful completion in grade seven or eight of any course, the primary focus of which corresponds directly to the subject matter of a specified course requirement in grades nine to twelve, inclusive; (2) toward meeting the high school graduation requirement upon the successful completion of a world language course (A) in grade six, seven or eight, (B) through on-line coursework, or (C) offered privately through a nonprofit provider, provided such student achieves a passing grade on an examination prescribed, within available appropriations, by the Commissioner of Education and such credits do not exceed four; (3)
toward meeting the high school graduation requirement upon achievement of a passing grade on a subject area proficiency examination identified and approved, within available appropriations, by the Commissioner of Education, regardless of the number of hours the student spent in a public school classroom learning such subject matter; [or] (4) toward meeting the high school graduation requirement upon the successful completion of coursework at an institution accredited by the Department of Higher Education or regionally accredited. One three-credit semester course, or its equivalent, at such an institution shall equal one-half credit for purposes of this section; (5) toward meeting the high school graduation requirement upon the successful completion of on-line coursework, provided the local or regional board of education has adopted a policy in accordance with this subdivision for the granting of credit for on-line coursework. Such a policy shall ensure, at a minimum, that (A) the workload required by the on-line course is equivalent to that of a similar course taught in a traditional classroom setting, (B) the content is rigorous and aligned with curriculum guidelines approved by the State Board of Education, where appropriate, (C) the course engages students and has interactive components, which may include, but are not limited to, required interactions between students and their teachers, participation in on-line demonstrations, discussion boards or virtual labs, (D) the program of instruction for such on-line coursework is planned, ongoing and systematic, and (E) the courses are (i) taught by teachers who are certified in the state or another state and have received training on teaching in an on-line environment, or (ii) offered by institutions of higher education that are accredited by the Department of Higher Education or regionally accredited; or (6) toward meeting the high school graduation requirement upon the successful completion of the board examination series pursuant to section 18 of this act.

[(f)] (h) A local or regional board of education may offer one-half credit in community service which, if satisfactorily completed, shall qualify for high school graduation credit pursuant to this section,
provided such community service is supervised by a certified school administrator or teacher and consists of not less than fifty hours of actual service that may be performed at times when school is not regularly in session and not less than ten hours of related classroom instruction. For purposes of this section, community service does not include partisan political activities. The State Board of Education shall assist local and regional boards of education in meeting the requirements of this section.

[(g)] (i) A local or regional board of education may award a diploma to a veteran of World War II, pursuant to section 27-103, who left high school prior to graduation in order to serve in the armed forces of the United States and did not receive a diploma as a consequence of such service.

(j) For the school year commencing July 1, 2012, and each school year thereafter, a local or regional board of education shall collect information for each student enrolled in a public school, beginning in grade six, that records students' career and academic choices in grades six to twelve, inclusive.

Sec. 18. (NEW) (Effective July 1, 2010) (a) The Department of Education may establish a board examination series pilot program to allow local and regional boards of education to permit students in grades nine to twelve, inclusive, to substitute achievement of a passing score on a series of examinations approved by the State Board of Education for the high school graduation requirements pursuant to section 10-221a of the general statutes, as amended by this act. The State Board of Education shall issue a board examination certificate to any student who has successfully completed such program. Such board examination certificate shall be considered in the same manner as a high school diploma for purposes of determining eligibility of a student for enrollment at a public institution of higher education in this state.

(b) Notwithstanding the high school graduation requirements
pursuant to section 10-221a of the general statutes, as amended by this act, for the school year commencing July 1, 2011, and each school year thereafter, a local or regional board of education shall permit a student to graduate from high school upon the successful completion of the board examination series program described in subsection (a) of this section.

Sec. 19. (Effective July 1, 2010) (a) For the fiscal years ending June 30, 2013, to June 30, 2018, inclusive, the Department of Education shall, within available appropriations, provide grants to local and regional school districts to begin implementation of the provisions of subsections (c) and (d) of section 10-221a of the general statutes, as amended by this act.

(b) On or before November 1, 2012, and biennially thereafter, each local or regional board of education seeking grant assistance from the department pursuant to subsection (a) of this section shall report to the department on the status of the school district's implementation of the provisions of subsections (c) and (d) of section 10-221a of the general statutes, as amended by this act, and an explanation for the reasons why funds are necessary for the next biennium to implement the provisions of subsections (c) and (d) of said section 10-221a.

(c) On or before February 1, 2013, and biennially thereafter, the department shall report, in accordance with the provisions of section 11-4a of the general statutes, to the joint standing committee of the General Assembly having cognizance of matters relating to education on the status of implementation of the provisions of subsections (c) and (d) of section 10-221a of the general statutes, as amended by this act, by local and regional boards of education in the state. Such report shall include, (1) an explanation of any existing state and federal funds currently available to assist in such implementation, (2) recommendations regarding the appropriation of additional state funds to support local and regional boards of education in the implementation of subsections (c) and (d) of said section 10-221a, and (3) recommendations for any statutory changes that would facilitate
implementation of subsections (c) and (d) of said section 10-221a by local and regional boards of education.

Sec. 20. (NEW) (Effective July 1, 2010) On and after July 1, 2012, the Department of Education shall commence development or approval of the end of the school year examinations to be administered pursuant to subdivision (2) of subsection (c) of section 10-221a of the general statutes, as amended by this act. Such examinations shall be developed or approved on or before July 1, 2014.

Sec. 21. Subsection (g) of section 10-233c of the 2010 supplement to the general statutes is repealed and the following is substituted in lieu thereof (Effective from passage):

(g) On and after July 1, 2010, suspensions pursuant to this section shall be in-school suspensions, unless during the hearing held pursuant to subsection (a) of this section, (1) the administration determines that the pupil being suspended poses such a danger to persons or property or such a disruption of the educational process that the pupil shall be excluded from school during the period of suspension, or (2) the administration determines that an out-of-school suspension is appropriate for such pupil based on evidence of (A) previous disciplinary problems that have led to suspensions or expulsion of such pupil, and (B) efforts by the administration to address such disciplinary problems through means other than out-of-school suspension or expulsion, including positive behavioral support strategies. An in-school suspension may be served in the school that the pupil attends, or in any school building under the jurisdiction of the local or regional board of education, as determined by such board.
