

My name is Marissa Piper, my husband and I have 3 children. My youngest will be 1 in March and he has Down Syndrome.

We were receiving Birth to Three services up until this month because we fell behind on the payments.

My husband is our only source of income and although he brings in a good paycheck it is hard for us to make ends meet.

I feel very sad that my son can not be provided the services he needs to make a difference in his life because we as parents can not afford the fees.

I really hope there is a solution to help people like us very soon so Brody can flourish into the bright young man I know he can be.

Thank you for your time,

Marissa Piper
