

Dear Rep. Fleischmann,

Please vote in favor of An Act Concerning Dissection Choice (HB5423).

This bill would allow students with ethical, religious or other objections to harming animals to opt out of animal dissections and experiments in their classrooms.

HB5423 would place Connecticut in line with 15 other states that have passed similar laws and resolutions that create more inclusive learning environments for students and encourage the integration of educationally-superior, humane learning methods in science curricula.

I wish this had been an option for me when I was in high school.

Thank you for your consideration of this matter.

Sincerely,

Frank O'Gorman
