 Catastrophe Restoration

My name is Robert Symolon and I am the President/CEO of Capitol Cleaning Contractors, Inc. I am testifying for the record on Raised Bill No. 422.

Capitol Cleaning Contractors, Inc. has been a part of this Pilot Program for approximately 3 years. During this time we have seen a number of employees from this program become a part of the on-site team, contributing and interacting equally with other members of the team.

Capitol feels strongly that having seen the current successes there will be more opportunity as the program continues.

Over the extension, Capitol plans to expand opportunities beyond and above the State locations and into other facilities we service. Recently, one individual was placed in a facility other than a State specified one.

Capitol strongly supports this Bill and feels that the benefits in the years ahead will be substantial.

Sincerely,
 Capitol Cleaning Contractors, Inc.

Robert Symolon
