RE: *Senate Bill No. 422 "AN ACT CONCERNING THE DEPARTMENT OF ADMINISTRATIVE SERVICES' PILOT PROGRAM"*

My name is Scott Cahill and I started working for C.W. Resources in October of 2003. Before working for C.W I was receiving social security and I bounced from job to job and without the employment program I could not sustain a job. C.W. Resources has allowed me to stay gainfully employed for the last 7 years. I like the fact that our supervisors work with us when our physical problems due to our disabilities occur. They work with us in order to keep us employed. I feel that if I did not have the employment program C.W offers my other options would be social security and the welfare system. C.W has given me the opportunity to be a productive human being in society. I love the fact that I do not have to sit in my house all day. When I receive my paycheck at the end of the week I feel like I have accomplished something. I would like to thank C.W Resources for giving me the opportunity and allow me to grow as a person.

Thank you for your time!
