~~RAISED BILL~~ #5313

Dear Madam/Sir:

We were with our grandson and our granddaughter from the day they were born. We were completely bonded with the grandchildren and they with us.

All the time spent with our two grandchildren was full of purpose. For 6 years we were not just the babysitter, we were sharing our lives together... us teaching them and most important... 'they were teaching us'.

Connecticut's Grandparents Rights Law definitely needs to be changed...updated... anything.....

Thank you.
