

Good morning,

I am the President of Candlewood Isle Tax District and I just learned of proposed Bill 5268 and want to advise that I am strongly opposed to this Bill. It is unnecessary legislation that could potentially create disproportionate burden to residents of our community. The current process of taxing based on the assessed value of properties and applying the mil rate is the fair and only way I see to tax residents. I also don't agree with making any specific changes for the Princess Pocotopaug District.

Thank you,

Jami Cheneski

President

Tax District of Candlewood Isle
