

Members of the Committee.

My name is Norman Juniewicz-Pres. of the North Haven Lions Club, I am a Lions club member for the past 15 years and I oppose bill #6380 -Elimination of BESB.

If the separation of BESB is successful, programs will be negatively impacted. You are asking a department with no experience with face to face educational services to do just that.

BESB offers comprehensive consolidated solutions to the blind and visually impaired. These hand crafted solutions allow for many successful outcomes. As a blind person transitions from a child to an adult BESB has prepared them to work towards independence and to be a contributing member of society.

Respectfully concerned,

Norman Juniewicz  
President North Haven Lions Club
