Hello, I am concerned about "group Homes" in Connecticut, as they have closed quite a few of them. My daughter lives in a wonderful group home in Hamden, and, I want it to stay there. The people that work with these children are wonderful and they do not deserve to lose their jobs. I am 73 and I can't take care of Paula at home, as she is mentally challenged and physically handicapped, and the home and the workers are taking such good care of her. And, I can visit her anytime. It is such a home atmosphere. Thank you for listening! You have been great all thru the years.
