

**Subject:** Proposed Bill No. 6318

Greetings Mr. Calabrese,

My name is Peter Stodolski. I am writing to you in regards to Proposed Bill No. 6318. I am an A&P Mechanic and a former student of H.H. Ellis Technical High School (now known as CT Aero Tech), who attended and successfully completed the aircraft program. Aviation is an industry that is constantly changing with new technology. I feel that this bill should be passed to allow companies to donate equipment to the vocational-technical schools to better help prepare students on equipment that is currently being used in their respected industry.

Thank you for your time.

Regards,

-Pete
