**Subject:** raising High School age to 18

Honorable Members of the Education Committee,

I was unable to participate in yesterday's hearing, but would like to comment. As an educator, I am in support of raising the age to 18. The requirement should also include the expectation that the student EARN a high school diploma. This is the law in many European countries, my native Poland included. This is a serious investment on the state's and the tax payers part and should have this goal attached to it.

(If you need more, please write back.)

Best regards,  
prof. Zamorska
