Subject: Tax Increase proposed by the Governor

Increasing Taxes is no answer to fixing a budget deficit, we should be cutting wasteful spending and provide tax incentives to stimulate business which intern will create jobs and provide more tax revenue. The property taxes in Connecticut have doubled in the last decade, and the state still in the red. We need to cut spending and create jobs. As a small business owner who in 2008 cut my own salary so I did not have let my employees go - still struggling to increase my business by cutting cost and working harder and longer. I hope the Governor understand that tax and spend is digging a deeper hole for all of us.

Sincerely,
John Gollioza
