To whom it may concern:

I agree that the 17 acres which is part of the Clark Creek Wildlife Management area and abuts the riverfront property of Eagle Landing State Park, which was purchased by the State of CT with the intention that it remain open space, **should be retained in its natural scenic or open condition as park or public open space.**

I also agree that the Higganum 87 acres owned by a private party should not be swapped for the 17 acre state owned parcel by the Connecticut River. It seems to give unfair advantage to a private citizen to swap land that has river view value and would have negative consequences on the natural flora and fauna of the Gateway area .

Please remove this property swap proposal from the conveyance bill.

Sincerely,

Tanja B. Moriarty

HB1196 Sec 14

PLEASE DO NOT allow this sneaky land swap! It is NOT in the interest of the majority of the residents of Haddam, nor the surrounding areas. This riverfront property should be kept as it was meant to be.....for many people to enjoy! NOT as a commercial undertaking by a few greedy ones.
