Subject: coverage by insurance companies for HEARING AIDS bill

Hello!

I am a 45 year old woman who has had hearing aids since 1970... My aids are NOT covered by insurance. It would be wonderful if the AIDS themselves were covered in full or even in part by insurance in CT.

I read a little about the bill - It's unfortunate that in the bill pending that the coverage seems to only be for people over 55 or people under 65 if I've read it correctly.

I was happy to see that something like this may be put into place. Hearing Aids are REALLY expensive - any help people can get with coverage in paying for the aids themselves in CT would be great.

Thank you and very truly yours,  
Sarah Shepherd
