Subject: HB 1094 Gun Magazines

Please do not support this bill currently before the CT legislature. There is absolutely no evidence tying higher capacity magazines to high violent crime rates anywhere in this country including Connecticut. Many handguns come standard with these magazines and they cost in excess of \$35 or more. Is the state of CT going to reimburse me for these when they come to confiscate them? Please oppose this legislation and support HB 1210 which allows a person to properly defend his property and his family's lives.

Thank you,

David M. Karchner
