Subject: HB 1094

Sir,

I'm sure that you are receiving volumes of correspondence concerning this bill so I will keep my comments short.

A ban of magazines exceeding 10 rounds was tried during the Clinton administration. It was soon demonstrated that the ban served no useful purpose and it was allowed to expire. The proposed ban for Connecticut would not improve upon that effort. Its only consequence would be to make felons of innumerable good and law abiding citizens and to widen the gulf between citizens and government. Neither of these consequences are in the best interest of anyone.

Please do not support this bill or any similar bill.
