

Bill #094

I oppose this bill because it doesn't protect the public, anyone who wants to get around it will find a way to do so. I believe that as a taxpaying citizen of Connecticut, my rights are being stripped away from me and many other responsible firearm owners.

No matter how many laws get passed to help with "gun control", people who don't go through the proper channels to get permits, will still have access to any weapon of their choice as long as the price is right. And the citizens that do, will be at their mercy one time or another. We are supposed to be a "free" country, but I feel like I am being dictated to, with what I can and cannot own.

The saying goes "one bad apple, spoils the bunch", how true that is, as a law abiding citizen, I will be told what kind of firearm that I can own,..... legally own. Please take my thoughts into consideration, before we are all the mercy of the people on the streets who can get a firearm on any street corner.

My home used to feel like the safest place in the world, that nothing can hurt you as long as you were safe in your home, but as we here in Connecticut know, that is simply not true.....
