Please forward

I am opposed to SB 1094. Please do not support this. Taking away our freedom does not stop criminals. We already have laws and restrictions in place that criminals do not follow. Punish them for breaking the law, do not punish those who have committed no crimes. Please put your efforts elsewhere, the state of CT has many other issues that need addressing. This proposition is a solution to a problem that does not exist. High capacity magazines are not the cause of crime, its the people who commit these acts.

Respectfully,
