

1/31/10

Members of the Legislature's Labor and Public Employees Committee  
Subject Reject HB-5460

As owners of a 99 year old company we at Hosmer Mountain have to question and oppose the Logic of bill HB5460. Treating employees humanely requires maximum communication and that's what small business is good at doing. Any restrictions on this process are wrong and should not be mandated, regardless of the original intent.
