Members of the Legislature's Labor and Public Employees Committee

**Subject:** Reject HB-5460

I respectfully urge you to reject HB-5460. I believe this proposal would be harmful to Connecticut businesses. Businesses need to be able to communicate fully with their employees, and discuss such things as wages, benefits, and terms and conditions of employment, without any restrictions being imposed on them.

Companies continuously monitor benefits options to ensure they meet the needs of employees and the company, and participate in charitable events, and must be able to communicate any changes and opportunities to employees without being restricted.

Again, I urge you to reject HB-5460.

Sincerely,

*Teresa Morrison*
