

Ms. Blancato,

I am writing in regarding a call to action I received from the Connecticut Forest & Parks Association (CFPA) . I strongly support the 3 bills (outlined below) which aim to restore recreational liability protection to municipalities. As an avid runner and cyclist, I believe that each individual is ultimately responsible for his/her own safety when using public or privately-owned land. In our litigious society, we cannot afford another fiasco similar to recent case with the MDC. These 3 bills will help protect municipalities from users who lack the common sense to hold themselves accountable for their actions and protect the use of the trails and open spaces for responsible members of the public for future generations.

In summary, I strongly support the 3 proposed bills outlined below.
